Benson Sees 'Good Chance' for Cut in Farm Price Supports

Thinks Congress May Approve In Spite of Cool Reception

Washington — Secretary of Agriculture Benson said today he sees "a good chance" that congress will authorize the reduced farm price support minimums requested by President Eisenhower.

Benson said he was "not discouraged" by the hot reception he and the president's program got yesterday at a public hearing before the senate agriculture committee. Some senators challenged Benson's sincerity and the accuracy of some of his statements.

Look For Rejection
Although Benson expressed optimism about prospects for the administration's new farm program, Chairman Ellender (D-La.) and Sen. Thye (R-Minn.) predicted that congress never will grant his request for authority to set price props on the basic crops and dairy products between 60 and 90 per cent of parity.

The present minimum is 75 per cent of parity. The basic crops are cotton, wheat, corn, rice, tobacco and peanuts.

Ellender said lower price support minimums haven't "the ghost of a chance" of winning congressional approval.

"I can't for the life of me see how it is possible to improve the lot of the farmer by reducing his prices," Ellender said.

Thye predicted, "We'll never cut supports below 75 per cent."

Benson told newsmen he would concede that "in a campaign year, a political year,"

Byrnes Fails to Set Debt Limit At \$278 Billion

Committee Votes Him Down; Fixes Top at \$280 Billion

Washington — Speedy house passage is expected next Tuesday for an administration bill to raise the national debt limit temporarily from \$275 billion to \$280 billion.

The bill was approved, 20-3, yesterday by the house ways and means committee a few hours after Secretary of the Treasury Anderson testified that government cash balances "have been distressingly low at times" in the last six months.

Before the final vote in the committee, Rep. Byrnes (R-Wis.) proposed a new ceiling of \$278 billion. That suggestion was shouted down.

The three committee votes against the administration bill reportedly were cast by Byrnes and Reps. Mason (R-Ill.) and Harrison (D-Va.).

House leaders indicated they anticipate no concerted opposition to the measure.

Cites 'Fight Position'
Anderson emphasized what he called the "fight position" under a \$275 billion ceiling by saying he expected federal cash balances in commercial banks to drop as low as \$250 million by early February.

That would be less than a single day's needs since the treasury pays bills amounting to \$14 billion every 5-day work week. Generally, Anderson added, the treasury likes to have at least a \$3 billion balance.

McCormack Says Congress Ready to Consider Any Proposals by President

Washington — Rep. McCormack (D-Mass.), the house majority leader, said today it is President Eisenhower's responsibility as commander-in-chief to tell congress how he thinks the Pentagon should be reorganized.

The Democratic leader, whose party controls both houses of congress, in effect served notice that the legislators would be reluctant to put through a major reorganization without a plan from the president whose constitutional duties include command of the armed forces.

Eisenhower said in his state of the Union message on Jan. 9 that he would send congress recommendations for reorganization of the military setup "to achieve real unity." But last Wednesday he told newsmen a plan must be worked out after "many conferences" in which the views of congress and the services would be sought. He said his own personal convictions could not be the final answer.

Meanwhile, demands have been aired on Capitol Hill for a drastic military reshuffling to end any harmful interservice rivalry. Some congressmen have said a "knocking of heads" at the Pentagon without a change in the law, would do the job.

McCormack, a top member of the house government operations committee which handles reorganization plans, said he is "keeping my mind open" on the subject. But he said Eisenhower's latest remarks indicate a delay before any plan comes from the chief executive.

Would Air Views
"I want to know what he has in mind," McCormack said. "He's the commander-in-chief. He has the responsibility of letting the congress know his views. Certainly his views would be worthy of and should receive consideration."

Arguments over military roles and better than usual news about missiles highlighted the defense story yesterday as house and senate committees recessed their inquiries wagon as it pulled away to jail, over the weekend. There were where Manuel will await another hearing.

Hamilton and other towns in the Glasgow area have been terrorized for two years because of a series of ten murders, all still unsolved. The crimes fitted no pattern.

Miss Cooke, a school girl, disappeared on her way to a dance. One day before police located her grave in a plowed field. Manuel was arrested and charged with murder in the deaths of Peter Smart, 45, his wife, Doris, 42, and their 11-year-old son, who were shot in their bungalow at nearby Udingtonston.

Neely, Senator Of West Virginia, Succumbs at 83
Washington — Sen. Matthew M. Neely, 83, Democratic senator from West Virginia, died today at the naval medical center in Bethesda, Md.

Neely, former West Virginia governor and house member, had been in failing health for a year. He was on hand, in a wheelchair, when congress convened early this month.

His death stands to cost the Democrats one seat in the senate. West Virginia's governor, Cecil Underwood, is a Republican and will appoint a successor to Neely to serve until the next general election.

With Neely's death, the Democratic senate ranks are reduced to 49, as against 46 Republicans.

Kuehn Noncommittal on Report He Will Resign
Milwaukee — Philip G. Kuehn Friday night refused to deny or affirm a report that he will resign as chairman of the Wisconsin Republican party as soon as a qualified successor is selected by the party's executive committee.

Asked to comment on the report that he will step aside because of the pressure of business, Kuehn said, "I have not tendered my resignation, and beyond that I have no comment."

Coroner's Jury Finds Holewinski Acted in Self-Defense in Slaying
Rhinelander — Walter Holewinski, 59, was freed from Oneida county jail Friday night after a coroner's jury held he acted in self-defense when he shot and killed a man who brought Holewinski's wife home at 4:30 a.m. Wednesday.

Holewinski, a town of Sugar Camp tavern operator, was released immediately after the 6-man jury announced its decision.

Sheriff Donald Krouze said that in view of the coroner's jury finding no charges would be filed against Holewinski.

The inquest jury was given four possible decisions before it retired. They were first degree murder, man-slaughter or accidental on grounds of justifiable homicide.

Robert Montgomery, 40, of Wausau, was killed by a shotgun blast when he returned to the Holewinski home with Mrs. Holewinski, 50.

Teenagers Planned to Use Hitler Philosophy

Aimed to Rob Bank to Get Funds for Superman Society of 'Nordic Supremacy'

New York — Plans of a youth gang for a \$40,000 bank robbery to get funds for setting up a nazi-like superman society have been broken up because two members disclosed the plot.

Police said the leader, 21-year-old George Leggett, had imbued his group of 10 youths with "Nordic supremacy" and the racial ideas of Adolf Hitler.

Leggett called himself "George von Lieter" and said he was born in Germany. Authorities said he was born in the Bronx.

The gang was broken up yesterday with the arrest of Leggett and four teenagers.

Early today four more youths, alleged members of the gang, were booked—three on burglary charges and one 15-year-old on a charge of juvenile delinquency.

Admit Burglary
Police said Jay Page and William Shutz, both 16, and Brian Casey, 18, broke into a Queens apartment last Wednesday night and stole a quantity of jewelry, all of which has been recovered.

In the homes of the plotters police found two sawed-off shotguns, three 22 caliber rifles and an arsenal of knives and daggers.

The two youths who told their elders of the bank plot, which led to the arrests, were not charged.

Police gave this account: Leggett formed the gang about two months ago. Members took an oath to "unite and purify all the Nordic peoples," and assertedly planned the bank holdup to provide money for an upstate camp to promote "the moral, spiritual, greatness and physical perfection which make up the true Nordic." The gang had letterhead

stationery and membership cards. They also had rubber stamps with phrases such as "For the Cause" and "Nordics Over All."

Leggett is unemployed. The other members attended Forest Hills High school.

Last Tuesday, Leggett called a meeting at his home and outlined his plan to rob the Kew Gardens, Queens branch of the Chase Manhattan bank. It was felt that more guns would be needed, so Tuesday night a 15-year-old gang member stole \$80 from his parents and turned it over to Leggett.

Wednesday night, at another meeting, Leggett set the robbery attempt for yesterday. Detailed floor plans of the bank were produced. All that was needed were two getaway cars. Milwaukee, was killed Friday

4 Persons Die On Highways

3 Perish in 3-Car Grant County Crash; 1958 Toll Now 25

Milwaukee — Three persons were killed Friday night in a 3-car crash in Grant county and another died in Waukesha county as Wisconsin's 1958 highway toll climbed to 25, three less than on this same day a year ago.

The Grant county crash occurred when two autos collided on Highway 80, about six miles south of Platteville, and a third car crashed into them.

The dead were identified by Sheriff Robert Seemeyer as Atty. and Mrs. Robert Brunkhorst, and Mrs. Gertrude Horn.

Allen Zimmell, 23, West Bend, was killed about 1:55 a.m. today when his auto and a Chicago and North Western train collided at the Main street crossing in the village of Barton.

Andrew R. Raasch, 36, of Milwaukee, was killed Friday night when his car left Waukegan Thursday. Polio Victims Given Award

\$147,300 for 2 Who Became Ill After Vaccine Injections

Oakland, Calif. — A jury which said it had no choice under the judge's instructions awarded \$147,300 for two children crippled by polio after they received injections of allegedly faulty Salk vaccine in 1955.

The judgment was against Cutter Laboratories, which had produced the vaccine.

It may set a precedent in settling 31 more suits against Cutter and many others against Dr. Robert K. Cutter, Cutter president, said he will appeal.

The jurors said they did not believe Cutter was negligent in preparation of its vaccine, but under the judge's interpretation of the law it must find for the children.

Insured by Lloyds
The plaintiffs' attorney, Melvin Belli, hailed the decision as "the first which makes a manufacturer stand behind his product in the good old American manner."

"Lloyds of London, which insured Cutter for \$3 million that we know of, was the real defendant in this case," Belli said.

The eight women and four men — by an 11-1 vote — awarded the parents of Anne Elizabeth Gottsdanker, 8, now of Providence, R. I., \$135,000 and the parents of James Randall Phippos, of Monrovia, Calif., \$15,300. They had sued jointly for \$365,000.

The Ashtabula reported the Panfilov's superstructure was damaged by a north Pacific storm which is fading away, for \$365,000.

Some of her lifeboats were gone. But the Panfilov's master said he was not in need of help so the Ashtabula was released.

The navy on Thursday granted special permission for the developed a curved spine. Two Soviet vessels and a Brit-James, whose father is an English freighter to put in at Mid-gineer, was less seriously affected for refuge and repairs.

How to Pay Taxes Subject of New Series to Begin Monday

Each year Uncle Sam's tax of the kinds of expenses you collectors discover that unincorporated or foolish taxpayers have turned over to the of the controversial line 6(a), internal revenue service misplaced by the Internal Revenue Service on 1957 forms and then cancelled. The line is on your form, but you have a choice refund money when it finds an error in the taxpayer's favor. But all returns cannot be checked. The wise taxpayer will make certain he is filing a correct return, paying the government exactly what is due.

Controversial Line
To help you do this, a series of eight articles on your in- come tax will begin Monday in the Post-Crescent.

The articles will take you step-by-step through the complicated tax procedure, from who must file to a description ready to prepare your return.

Another article describes errors which trip up most frequently and gives some valuable pointers on how to make sure they don't occur in your return.

Basket in Last Two Seconds Breaks Tie For Junior Varsity

New London — The New London High school junior varsity basketball team won a 50-48 victory in the last three seconds here Friday night. Guard Jerry McCrone connected with a layup to break a 49-48 tie with the Kaukauna Ghosts in the Mid-Eastern conference schedule.

Although Kaukauna led 17-12 at the end of the first quarter, the Bulldogs were back in the running before the end of the second quarter, holding a 25-24 lead.

Kaukauna had a 38-37 lead at the end of the third quarter. The closeness of the game was evident in the final quarter when, with less than six minutes remaining, the score was tied at 38-38. Other ties were at 40, 42, 44, 46 and 48 before New London nosed out with a 2-point win.

Mike Landreman, Kaukauna, led the scoring with six baskets and eight free throws for 20 points. Terry McDermott topped the Bulldogs with 12 points on five baskets and two free throws.

Savings, Loan Holds Meeting

Three Directors, All Officers Renamed At Clintonville

Clintonville — Three directors and all officers of Clintonville Federal Savings and Loan association were reelected at the annual meeting Wednesday.

Directors reelected to 3-year terms are C. C. Mullarkey, J. H. Stein and Erich Desens. Other directors are Harold Olk, Dr. R. E. Knister, S. J. Tilleson, Clarence Quail, A. B. Berg and George Meggers.

Officers reelected are Olk, president; Dr. Knister, vice president, and Tilleson, secretary and treasurer.

Tilleson reported the association boosted its assets to \$340,738.59. He said the institution holds more savings and serves more savers than at any time in its 24-year history.

'57 Summary

He summarized 1957 operations as follows:

Net savings increased by \$272,823.47, bringing the total to \$2,894,020.48.

Savings account holders increased by 351, making a total of 1,964.

A total of \$86,876.36 in earnings was paid to savers.

The home mortgage portfolio increased by \$446,210.44, bringing the total of home loans outstanding to \$2,910,004.47.

Reserves increased to \$235,791.81 and exceeded the reserves on hand at the beginning of 1957 by \$35,393.10.

After hitting the right shoulder, the car then crossed the highway, hit the left ditch and rolled over.

Hospital Auxiliary Repeals By-Law Forbidding Employees

Waupaca — A by-law excluding hospital employees, doctors and their wives from membership in the Riverside Hospital Women's auxiliary was rescinded from the constitution Thursday night during the annual meeting.

The law was included in the constitution after a recommendation by the hospital board when the organization started.

It was repealed by a unanimous vote.

Mrs. A. E. Tink, president, cited the group for its activities which included the initiation of the bulletin, the baby homecoming, silver tea, toy chest, sewing machine purchase, washer replacement and operation of the gift shop.

The hospital auxiliary handles reception, helps care for patients and lends a hand whenever needed.

The other officers for 1958 are Mrs. Willard Olson, vice president, Mrs. Jim Ecklund, secretary and Mrs. George Haebig, treasurer.

Civil Defense Talk

Mrs. Willard Olson spoke on simplifying the program for the coming year by dividing the work equally among the members. Another talk on civil defense and the hospital was presented by County Nurse Martha Ann Heigl. She suggested forming a committee to meet with Miss Mary Vesta Sours, hospital administrator.

Plans for expanding the gift shop were explained by Mrs. George Haebig. The auxiliary hopes to remodel the space they now occupy to make the displays more attractive and give additional room.

Mrs. John Sherburne reported that the toy chest had been successful and that any toy contributions by members would be

Fire Destroys Farm Home of Adrian Petits

Faulty Chimney Cause, New London Chief Believes

New London—Fire early Friday afternoon destroyed the interior of the Adrian Petit farm home on New London's south limits.

Fire Chief Gus A. Feurig blames a faulty chimney. He said several bricks were out of the chimney at the first floor level.

Fire spread along the first floor to stairs leading to the second floor and was flaming through the attic of the frame home before it was discovered by a neighbor.

Firemen met a wall of flames when they opened a side door to get at the fire.

Petits in Neenah

Some furniture was saved, but the fire burned out the stairs, the kitchen floor and part of the dining room floor. Flames climbed the walls to the second floor when the fire was at its height.

Mr. and Mrs. Petit were in Neenah when the fire broke out about 1:50. They returned to find the empty shell about 4 o'clock in the afternoon and moved in with relatives Friday night.

Two trucks responded. So did the city water truck, which made two trips to the fire scene. Firemen used about 1,500 gallons of water putting out the blaze.

New London C of C Plans Elections

New London—Plans for the annual meeting of the New London Chamber of Commerce will be completed at 7:45 Monday night during a meeting of the board of directors at the chamber's office. Earl L. Fredrickson, executive secretary.

The annual meeting will be held Feb. 12. Directors whose terms expire are Gordon Culver, Robert Johnson, Dr. Gornes, Meiklejohn, Franklin Millier, David R. Smith and Arleigh Zuege. The six, who will be elected during the annual meeting, will hold 2-year terms.

Directors remaining in office this year are L. H. Brown, James Cristy, Elmer Kopitzke, Don Steinert, Lee Tallady and Vernon Volz.

56 Washington High Students At Career Night

New London — Washington High school sent 56 members of the junior class to Clintonville Wednesday night to attend a career night program at Clintonville High school.

The students each attended two sections of their choice covering a variety of 24 professional and trade vocations.

Accompanying the New London students were A. F. Christ, principal, J. N. Wells, dean of boys, and Miss Dorothy Edkins, dean of girls.

Plans also will be made by Miss Edkins and Wells, of the New London school, and Mr. and Mrs. Robert Schunk, Clintonville, for a college night program to be held at the New London High school early in March. It will be for the seniors at the high schools at Clintonville, Shiocton, Bear Creek, Hortonville and New London.

'Paca Teens Polio Drive in Full Operation

Waupaca — The Teens Against Polio campaign is in full swing in Waupaca county. Laurie Kelly, county chairman, said today.

Although the organization is affiliated with the March of Dimes, it is a separate group, conducting an individual campaign. Main means of soliciting is through sales of blue crutch pins.

City chairmen throughout the county are William Suits, Waupaca; Karen Winekler, New London; Sandra Loberg, Clintonville; Sandy Schmidt, Manawa; Judy Gettendorf, Veyrawega; Joan Milbauer, Marion; Joseph Gjertson, Iola and Charlene Krueger, Scandinavia.

Waupaca sales are organized by the Methodist Youth organization which began its sales campaign last Saturday to continue all month. Blue Crutches are also on sale at the high school.

A Friday evening meeting of county and city chairmen is planned.

Family of 7 Routed By Fire in Kaukauna

Fireman Overcome While Fighting Blaze in Charles Schaefer Home

Kaukauna — A Kaukauna family of 7 was routed from its home in freezing temperatures early this morning and a fireman was overcome by smoke when a fire caused about \$12,000 damage.

The blaze, believed to have started from a defective cord in an electric clock in an upstairs bedroom, destroyed most of the second floor of the Charles Schaefer home, 207 Whitney street. There was considerable water and smoke damage throughout the house, firemen said.

Taken to Hospital
Fireman Fred Mason was overcome after going to the second floor to open a window to let smoke out of the house. He was taken to the Kaukauna Community hospital where he is expected to remain for several days for observation.

Fire Chief William Haupt said the department was called at 6:30 this morning. They remained at the scene until 9:15 this morning.

Four of the five Schaefer chil-

dren were helped from an upstairs porch when they fled the bedroom in which they were sleeping. Mr. and Mrs. Schaefer and another child were sleeping downstairs when the fire broke out.

Smell of Smoke

The parents were awakened by the smell of smoke and Schaefer called the fire department. The children upstairs awakened before their parents could reach them and, finding their room filled with smoke, they opened a window and crawled out on the porch roof. Firemen took them off the roof.

Schaefer's mother, who usually resides upstairs, is in Milwaukee.

Destroyed in the upstairs part of the home was a kitchen, bedroom, the ceiling in the living room and roof boards in the attic. A clothes closet, containing family apparel, was destroyed in the downstairs part of the home.

Production Methods in Producing stainless pipe was the topic of Howard J. Bowman, right, East Troy, speaker at the monthly meeting of the Fox Cities Chapter of the American Welding Society Friday night at the Appleton Elks club. Shown with him, from left, are G. K. Willecke, Appleton, a member of the society, Max Kern, Appleton, on the board of directors, and John Teigen, Menasha, social chairman. (Post-Crescent Photo)

Light Snow or Flurries are expected tonight in northern Maine, the lakes region and the Ohio, Tennessee and upper Mississippi valleys with some rain in the middle Mississippi valley. It will be generally fair with clear to partly cloudy skies elsewhere. It will be colder in the northern and central plains and northern and central plateau. (AP Wirephoto)

Crisp, Clear Air Covers Fox Cities

Crisp, clear weather greeted the Fox Cities and most of Wisconsin today.

Cloudless skies were reported everywhere except Superior, Grantsburg and Milwaukee where light snow fell at 6 o'clock this morning.

Appleton had an overnight low of nine degrees, according to the weather station at the Wisconsin Michigan Power company. The high Friday was 28. The temperature at 10 o'clock this morning was 12 with the wind from the west at seven miles an hour. No precipitation was reported.

The state forecast calls for mostly cloudy today and tonight. There will be occasional snow in the northwest portion today, spreading over the east and south portions by tonight. Sunday will be partly cloudy and continued cold with snow flurries near Lake Superior. The high today will be from 18 to 26 and the low tonight from 10 to 20. The outlook for Monday is for partly cloudy with a chance of a few snow flurries and no decided change in temperatures.

Hervey Files Papers

Former County Board Supervisor Charles C. Hervey, one of three candidates for Twelfth ward supervisor, Friday filed completed nomination papers at city hall.

Grand Chute Approves 41 Relocation

Town Chairman Says Board Members Like 3-Quarter Mile Mark

The Grand Chute town board Friday added its approval to the state's plan for a relocated Highway 41 about three-fourths of a mile north of the present highway.

Town Chairman Arthur Lecker said today the board toured the three proposed locations for the new roadway with L. W. Empey, district highway engineer, and Clarence Brownson, county highway commissioner.

The board voted for the three-fourths-of-a-mile location, Lecker said, because its route would interfere least with existing buildings and improvements.

From what he could see, Lecker said, the three-fourths-of-a-mile route would mean removal only of a barn and a farm home. The high lines of Wisconsin Michigan Power company will not interfere, he said, because the route would stay southeast of them.

Cemeteries in Way
Highland Memorial park, a cemetery, would be in the way of a route located one-fourth of a mile north of the present road, Lecker said. And the Grand Chute cemetery and a number of homes and farm buildings are on the other proposed route, a mile north of the present highway.

The Appleton city council Wednesday night approved the three-fourths-of-a-mile plan.

In other action, the board agreed to extend McCarthy road and the culverts along it into the Edwin Ploehn plat across Highway 76. The roadway right-of-way would provide four rods. Ploehn has about 25 lots in his plat.

Girl Slips, Falls On Ice; Hurts Leg

Lorraine Keller, 6, daughter of Mr. and Mrs. Elmer Keller, 1522 W. Spencer street, was taken home Friday evening by police after she slipped and fell on ice at W. Spencer and S. Locust streets. Her mother told police that the girl injured her leg about two weeks ago and the fall apparently aggravated the injury.

'Service Men are Human, Too' August Winter Firm Writes 'A Letter to the Public'

"August Winter & Sons, Inc.—a service organization" is the heading on a letter to the public offered this week by the firm concerning its service organization.

Parts of the message, which the firm feels will interest Business Review readers, are as follows:

"... Your oil burner control goes through a complete cycle of operation each time the oil burner starts and stops. In average cold weather it starts every half hour; that is, 30 times in 24 hours. 15,000 times EACH SEASON. And yet we all become impatient when the oil burner fails to operate and very often are inconsiderate of the service mechanic.

"Did you ever stop to think about this? Your oil burner or gas burner consists of many parts, mechanical, moving parts, electric contacts, heating coils, switches, transformers, resistors, motors, etc.—a dozen or more working in proper sequence at all times.

"We must also remember, the service mechanic is on the job at all hours. HEAT IS A NECESSITY, not a luxury. The service mechanic demands service. All you good wages and when he needs a screw driver, pliers, comes qualified by years of experience, a wrench, and a lip-nerve, he demands higher wages.

"Emergencies are a Hazard. How would any of us like to tell the wife after planning a evening out for days in advance, that the phone call we answered was an emergency damage insurance, a garage service call and well, she will just have to wait while they change clothes and go to see how bad the trouble is. Or, are open, money to tie up in better still, go see what the trouble is without changing clothes and come back with your suit practically ruined.

"Winter and Sons have a good reliable service organization where the mechanics receive top wages and remain

Advertising News Beans and Wieners Promoted By Van Camp's for Winter Fare

On January 29th, Van Camp's Pork and Beans will run a half-page advertisement in color, in the Appleton Post-Crescent, promoting Beans and Wieners.

"When it's Bean Time U.S.A., most folks make it Beans and Wieners. More suppers include Van Camp's Pork and Beans than any other brand. The secret, savory sauce is cooked in. Just heat... eat... and enjoy. Economy meals, yet, delicious and tasty. Suited to your budget.

Economical, efficient, and excellent, the three E's, when combined, mean only one thing—Van Camp's Pork and Beans! Remember, Van Camp's Pork and Beans outsell the rest because it tastes the best.

THE COMPANY NAME

Wetzel, Voss and Associates, Food Brokers of Milwaukee, has recently been changed to Voss Company.

The founding of Wetzel-Voss & Associates took place in 1925, with the original formation being, Wetzel, Tomlinson, and Gruse. In 1928 Mr. Tomlinson left the business and Wetzel and Gruse continued to merchandise foods in the state of Wisconsin, and together built a solid organization, until in 1938 they again expanded, and Mr. James R. Voss joined the company.

In 1950 Wetzel - Voss was employment insurance, paid holidays, union welfare plan, personal property tax, etc.

"Remember," the letter points out—"the more competitors we get, the more competitive the prices... Who knows? Maybe service costs are too high?

Then there's always the chance of a lawsuit in case of smoke damage or water damage on a \$5.00 service call... a chance you just have to take! And sometimes, the servicing company is lucky to get paid for all of its labor even when the service problem is spasmic and requires three or four calls to find the trouble and correct it.

"Still want to go into the heating service business?" the letter asks. "Go and see the Heating Inspector, City Hall, Appleton. A license is required. Phone number at August Winter & Son Inc. is 4-7144.

THE WORLD'S SWEETEST

substance celebrated its 60th birthday in 1957.

Its name: saccharin — still performing its important role in making "sugar-free" and low calorie diets more palatable.

This versatile compound, which is enjoying its most extensive use today as the basic ingredient in sugar-free sweeteners, was discovered accidentally in 1897 by Hans Fahberg, a graduate student at Johns Hopkins University in Baltimore.

He discovered saccharin, which proved to have a sweetening power about 500 times that of sugar. Even though chemists have worked diligently ever since—especially after 1950—their best sweetening effort to date has been only 40 times that of sugar.

Saccharin is not metabolized by the body—it affects only the taste buds. It has no food value, thus is "zero" in calories.

However, saccharin in its original form had certain limitations—including a tendency when used in quantity to leave a bitter aftertaste.

In 1916, a man named H. W.

HEARD ABOUT THE TORRID LOVE AFFAIR in the grocery business? Hash loves Catsup—Catsup loves Hash. The couple has been going together for years, but it took the Broadcast Canned Meat folks to make the most of this delightful relationship.

Large space newspaper ads will make the lovers as well known as Romeo and Juliet. Although the name of the "girl" will change frequently, Broadcast Canned Meat Hash will always be the suitor. The catsup bottle as pictured in the advertisements leaves the door to this romance open to all.

A unique promotion is planned for the campaign. Point-of-sale material will feature actual brand names of individual catsups that tie-in with the promotion. Shelf talkers and banners will be imprinted with not only the desired catsup name, but also the shelf prices wanted by the retailers.

The theme of the promotion is told in the ads. "Hash loves Catsup — Catsup loves Hash, you'll love 'em for breakfast, lunch or dinner."

The announcement of this promotion follows on the heels of

SPORTS CARS ILLUSTRATED magazine's 1958 award "in recognition of outstanding achievement and significant contribution to the automotive field" was recently presented to the 1958 Buick line for the major advance in brakes contained in Buick's 1958 cars. The magazine, termed "a most stern and unforgiving critic of automotive brakes" was deeply impressed with Buick's new bonded aluminum-steel brake drums, and after severe tests, declared — "They are the best brakes on a Detroit sedan by far that we have tested, and are conservatively, a 100 per cent improvement over conventional Detroit brakes." A 1958 Buick special is shown above. Buick dealer in this area is the Cloud Buick company, 210 N. Morrison street.

Four Buick series out of the five offered buyers are equipped with the new deeply-finned aluminum brake drums. After cooling, which takes up to 20 minutes later, average efficiency explained.

In all of Sports Cars Illustrated's tests, the brakes were their former selves, the magazine stated, and once so faded, so the brake shoes and drums tested in a series of 10 consecutive emergency they are never again as fade heat up to a high temperature, resistant as formerly and often this is termed brake "fade."

Reuther's Latest Scheme

Walter Reuther is living up to his reputation as the shrewdest headline-grabber in the American labor movement. He knows how to come up with something dramatic and unexpected at the strategic moment. His purpose, of course, is to put the employers with whom he deals on the defensive, thus making them a softer touch at the bargaining table.

Reuther's latest proposal is that the automakers share their profits with both their employees and their customers. He proposes that one-quarter of the auto companies' profits above 10 per cent on invested capital be turned over to the employees, and another quarter given in the form of rebates to the purchasers of autos. The remaining 50 per cent would be retained for dividends and the companies' capital needs.

Reuther often has been called a socialist and this proposal reinforces the accusation that his ideas have their roots, at least, in socialist thought. Not because he advocates a sharing of corporate profits with employees — that concept is strictly a product of latter-day capitalism — but because his proposal obviously is based on the old socialist idea that there is something fundamentally wrong with profits as such.

If his proposal were put into effect, automobile shares on the stock market presumably would plunge to about half their present value, since earnings available to the stockholders would have been cut drastically. This means that when the automakers want to raise money for expansion or other corporate purposes they could raise only half as much with a given issue of securities. And this in turn would mean that whatever plans the automakers have for buying new machinery and building new plants to turn out improved products would have to be cut back proportionately.

The only way the auto companies would be able to maintain their competitive position in the nation's money markets would be by raising the prices of automobiles enough to double their profits. Then the

amount available for stockholders, of course, would be the same as before, and the "rebate" to the customer would be strictly fictional. The only people who would gain under such a system would be the workers — Mr. Reuther's dues-paying members. But would they really gain? What would happen to the auto industry if prices were so raised? In all likelihood the Reuther plan, if put into effect, would throw many thousands of auto workers out of work.

Profit-sharing is not at all a new concept in this country. Many companies have adopted plans under which a share of profits is put aside for employees; sometimes it is paid to them in cash, sometimes it is put aside to provide pensions, in some cases a combination of these two methods has been adopted. The profit-sharing idea has grown in popularity with both management and workers during the last decade in which we have been enjoying prosperity and good profits. We have yet to see what is going to happen to the idea if we go into a different kind of a period. Generally, however, the idea has been accepted as a good way to spread the benefits of our free enterprise system, to make workers more aware how important that system is to them, to build in them a realization of how important to them is the success of the company by which they are employed.

We have come a long way from the day when the fruits of our free enterprise system were enjoyed principally by a small minority of our population; let us give Mr. Reuther and his kind the full credit due them for the part they have played in bringing about this very beneficial redistribution of wealth in this country. But let us remember also that the profit system is what has produced that wealth in the first place. Suggestions for making the system work better should be welcomed; those that are based on an attitude that there is something basically wrong with the system itself should be looked upon with extreme suspicion.

Terror in Hungary

The campaign of terror through the medium of trials still being waged by Hungary's Kadar regime is particularly frightening because of the apparent surrender of the government to hysteria. Communist regimes do not generally carry out policies of reprisal except for a purpose. But the Hungarian government is continuing to turn pure white hands to the world, with the dark marks of blood stains visible only to those nearby.

Soon after the revolt Kadar announced that "no one will be persecuted for participation in the great national movement." This was soon qualified to mean that those who didn't actually have anything to do with "criminal actions" would be safe enough. But as the rumblings continued, wholesale arrests, trials, deportations and executions began. According to reports which find their way out of the beleaguered nation men, women and children have been brought to account for such crimes as "participating in revolt," "terror acts," "distrib-

Protection for Children

The Wisconsin Sheriffs and Deputy Sheriffs association has put out a pamphlet aimed at better control over one of the most frightening of present day dangers — the child molester.

Serious crimes against children are relatively few in Wisconsin, partly because of our sex deviate law which requires treatment of offenders. But usually when some youngster is abused, information is found that the offender had made previous attempts. The sheriffs' brochure emphasizes that such attempts should always be reported. Otherwise "officers are blocked from trying to nab a suspect, who being allowed to go undetected, is free to entice an-

Does Retirement Injure Health?

From the St. Petersburg Times

The answer is that retirement, contrary to a widely held belief, not only does not injure health but, under right conditions, improves health. Injury to the health of retirees comes about for most of the same reasons that apply to non-retired persons. (An exception of course, would be broken health from over-work.)

Undernourishment, worry and discouragement because of insufficient income, poor housing, inadequate medical attention all of these are known to have a deleterious effect upon the health of some individuals.

On the other hand, freedom from long hours of work, the strain of fighting traffic in going to and from work, removal from a disagreeable to a pleasant climate (such, of course, as that of Florida) all may have a curative effect.

At the 10th annual meeting of the Gerontological Society in Cleveland recently, two Cornell university scientists are reported to have challenged the "widely held belief that retirement has a damaging effect on the health of older people and hastens their death."

uting revolutionary literature," "terroristic acts against communists in 1919," "conspiring against the state," "printing incitement to murder" and the always reliable "counter-revolutionary activity."

Officially the government has announced that only 1,717 people have been tried, 110 sentenced to death and 1,689 held in concentration camps. But reports indicate that some 20,000 may be held in prison, 30,000 to 40,000 sent to concentration camps and at least 2,000 executed.

Obviously the purpose is to try to restrain with abject fear the rebellion that must still surge in conquered Hungary. And the rumors are supposed to warn the peoples of other satellite countries of their fate if they dare as did the Hungarians.

But to the rest of the world the Kadar regime, only a mouthpiece for the Kremlin, purports to be sweet and gentle and of a forgiving nature. Those who speak of getting along with the communists, forgetting nuclear tests and withdrawing forces from Europe should take careful note.

other child and the next youngster might be a victim of a tragedy."

The pamphlet also gives sound advice for both parents and youngsters. Children should be warned never to get into a car with a stranger or even to go near a stranger in a car asking for information, never to accept gifts or to play alone in empty buildings. And parents are told to know where their children are, the nature of baby-sitters and that the police officer is a friend the youngster should not fear.

This is a timely and informative pamphlet. It points the way to intelligent protection from the sick minds which pick children as innocent victims.

Drs. Wayne E. Thompson and Gordon F. Streib, ascribed the belief to the fact that "many persons who retire voluntarily do so because their health has already begun to fail."

These men reported results of a survey of 1,260 persons over a 6-year period, before and after their retirement from employment. It was found that persons who retired voluntarily, because of age, suffered less deterioration after retirement and some showed improvement in health.

Other experts, however, reported that an arbitrary retirement age of 65 or even 70 is for many people well under their potentialities. "Our own experience here in St. Petersburg certainly indicates that this is the case. It is just as foolish to have a flat retirement age as it would be to say, for instance, that no one under the age of 35 could head a department."

Retirement for a great many people, is a fine and profitable thing — if the retiree has adequate income for good housing, good food, and reasonably good facilities for recreation and intellectual stimulus.

Oppose Aid If East Germany Revolts Against Reds

Some Favor Collective Action by West

BY ELMO C. WILSON
Director, World Poll

How would the world react if another of the satellite countries were to revolt against Russia as Hungary did? Has the world's conscience been so dulled by the first atrocity that it would react less violently? Or has there been so much regret over the failure to aid the Hungarians that there is now a firm resolve to react more forcefully if a similar situation arises?

World-Poll posed the following hypothetical question to the public of ten nations: "What do you think your government should do if East Germany were to revolt against Russian domination?"

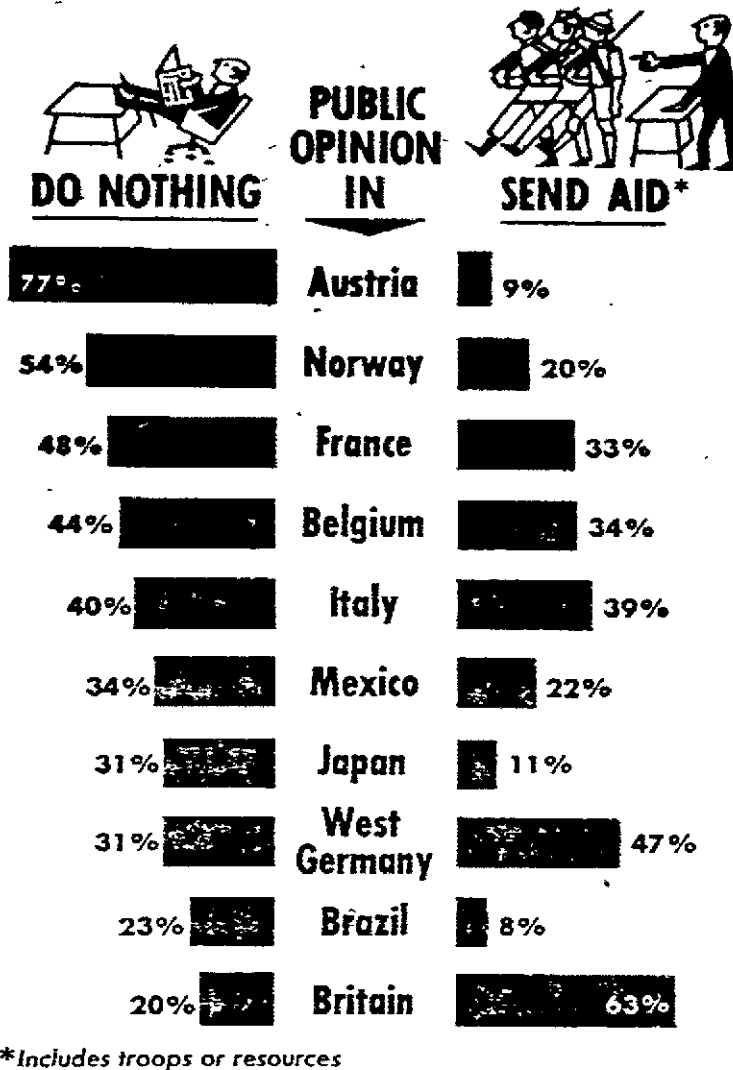

In Austria, in which thousands of refugees found shelter in their flight from Hungary a year earlier, the large majority (77 per cent) favored a policy of inaction. In Norway, France, and Belgium, the "do nothing" recommendation was the majority or plurality view. Only in Britain and West Germany was the sentiment predominant that the Western nations should come to the aid of the East Germans, perhaps through the United Nations Organization.

Many Undecided
In each of the European nations polled except Austria and Britain, the "no opinion" ran to one-fifth or more of the total population. In Mexico City, almost half the people and in Rio de Janeiro, the large majority expressed no opinion on this question. In Japan, too, the "no opinions" outnumbered those with an opinion.

Age Groups Agree
The views expressed in each country about what should be done in the case of an East German uprising were the same whether the person interviewed was man or woman, young or old.

Educated for Action
The amount of schooling the respondent had, exercised a great influence on his answer. That better educated in most countries were much more likely than others in the population to urge collective action. The educational pattern shown for

3%	3%	6	7	20	43	28	100
3%	3%	7	7	46	33	11	100

In these countries, the majority opinion of the better educated is that the Western world should come to the aid of the East Germans: the majority opinion of less well educated is a policy of inaction.

In Austria and Norway both better educated and less well educated favor neutrality; in Britain, at all educational levels, intervention has a plurality.

Early Gas Cost \$3.50 For 1,000 Cubic Feet

79 YEARS AGO

Quoted from the Appleton Crescent for the week of Jan. 18, 1879.

Advertisement — The Appleton Gas Light Co. are now prepared to furnish a very excellent quality of gas to consumers at the exceedingly low price of \$3.50 per 1,000 cubic feet. The advantages of Gas as an illumination are so well known that it will be of the interest to all, who can, to use it and avoid the dangers of kerosene. No family is really safe with a kerosene lamp in the house.

Mexico City and Rio de Janeiro, and in Japan, the more schooling the respondent has had, the more likely he is to favor neutrality.

One interesting facet is that opinions on this issue bear little or no relationship to how people felt about the 1956 Hungarian revolt. The relationship between opinions on these two issues was strongest in Norway, Italy and France where there was a tendency for those who felt that the U. N. should have done more to help Hungary to feel also that their nation should intervene on the side of East Germany in such a rebellion.

Among those who feel the U. N. did everything it should have done for Hungary	Did everything it should have done for Hungary	Did not do everything it should have done for Hungary
Proportions who urge aid to East Germany:		
Norwegians	19%	37%
Italians	40	62
French	33	45

Apparently it is easier to talk about what should have been done in a past situation than to express willingness to act in a possible future situation.

(Next week's World Poll column will reflect present attitudes toward the U. N.'s handling of the Hungarian uprising.)

Mexico Is Paradise for Treasure Hunters

BY JACK RUTLEDGE

Mexico City — Buried treasure. Gold, silver, emeralds, jade, pearls, forgotten mines, pieces-of-eight, doubloons, ancient coins.

Mexico has them all, well hidden but waiting some smart — or lucky — adventurer willing to gamble.

Mexico's very past makes it a natural breeding ground for lost treasures.

The Aztecs and Mayans with fantastic fortunes accumulated before America was discovered; the Spanish conquistadors who looted and sometimes lost their loot; the galleons with cargoes of gold, silver and jewels sailing for home but sinking off the country's treacherous coastline.

Later, the hectic days of the Revolution when the wealthy hid their fortunes and died before telling kin where to find them; the bandit era during which even Pancho Villa is believed to have buried fortunes.

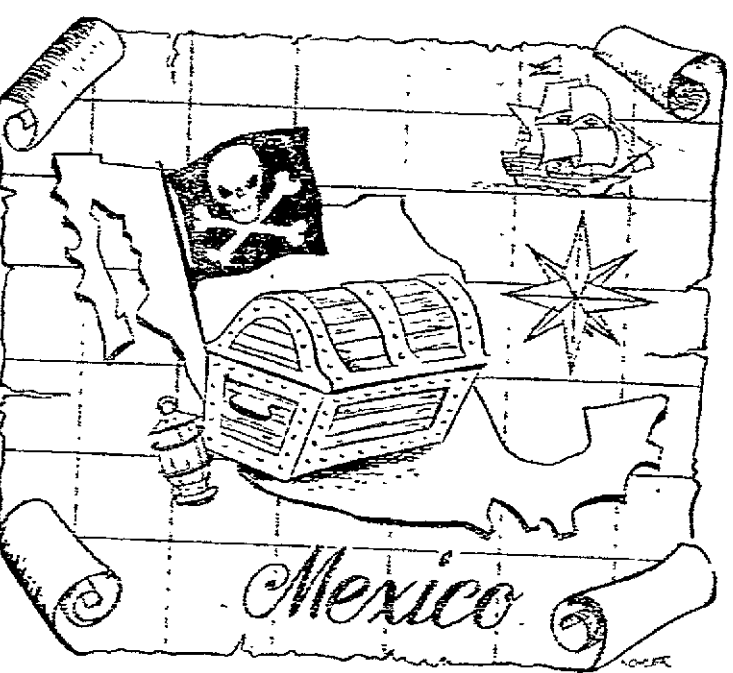

And throughout these centuries, men found rich mines, jealously guarded their locations — and died or disappeared. The mines are still there.

Treasures Listed

The magazine, "Mexico This Month" recently devoted almost an entire issue to lost treasures. Here are just a few:

MOCTEZUMA'S LOST TREASURE — Axtayacatl, father of the last Aztec emperor, accumulated the fantastic hoard Moctezuma sealed it up in his palace. When the Spaniards invaded Mexico and took the Aztec capital, they found the treasure stole much of it fleeing before frantic Aztecs, the Spanish soldiers looted all they could carry. But many were so greedy their loads were more than they could handle, and they drowned in the surrounding canals. The Aztecs recovered much of it, buried it. This hoard, and more of the Aztec treasures, never discovered is still there. Somewhere. Some say in the Valley of Toluca.

QUETZALCOATL'S FORTUNE — This dates back

into legendary days before Moctezuma. Quetzalcoatl was an Aztec God whose wealth could not be estimated. It was buried in a place described at Atepanahco, to this day a mystery. But it is thought to be near Tula.

THE CONDOY TRIBAL TREASURE — The powerful chief Condoy buried his tribe's fortune in a cave during a major battle with the Zapotecs. He lost the treasure was lost, too. It is in Oaxaca, somewhere in the mountains known as Zempoaltepec.

THE SACRED WELL OF CHICHEN ITZA — to appease the Rain God, the Mayans buried human sacrifices carrying valuable ornaments and jewelry into a deep sacred well. Some of this treasure has been found and is in the Peabody Museum of Harvard University. Much remains undiscovered.

Many Ruins Undiscovered — Treasure is believed to exist near all the old ruins — and many ruins have not even been found in Mexico's jungles and isolated mountain areas.

But not all of the nation's hidden wealth dates back to archaeological or conquest days. Pirate chests exist, and many have been found. During the Revolution, wealthy

men buried their possessions, dropped them in wells or sealed them in the thick walls of their haciendas.

More definite, and easier to find but harder to recover, are the treasures that went down to the sea in ships — and then sank.

Harry E. Rieseberg, self-identified as a deep-sea treasure salvor, lists these, among others:

The steamer "Golden City" sank off the coast of Baja California Feb. 22, 1870, with \$500,000 uplus a valuable general cargo.

The "Golden Gate" rests some 400 feet off Manzanillo, under 20 fathoms of water, with gold bullion and silver specie originally totalling \$1,500,000. It sank in 1862. About \$500,000 was recovered by a small expedition, the rest remains under 15 feet of sand. Included in the treasure are \$35,000 in rare octagonal \$50 U. S. gold coins, minted just once and discontinued. They're said to be worth about \$165 each now.

Galleons Galore — But long before these days, older treasure-laden ships went to the bottom along Mexico's Gulf and Pacific coasts. There was the Spanish galleon "Buena Jesus" enroute to Madrid in 1596, deliberately sunk near Puerto Morelos, Yucatan, to prevent capture by pirates.

It is supposed to hold millions.

Texans will be interested in close-to-home buried treasure — in the so-called "Graveyard of the Rio Grande."

The border stream was once not only navigable but heavily used. And many a ship went down in its twisting, treacherous currents.

The sidewheeler steamer "Lea" sank in 1880 during a storm, foundered not far from Brownsville, Tex. It carried \$100,000, is supposedly still there.

The sternwheeler steamer "Carrie A. Thomas" sank on June 15 of the same year when she struck a snag about 24 miles below Rio Grande City. It had \$90,000. The "Jessie" out of New Orleans, stranded and later sank on a bar at the mouth of the river, it had a cargo of \$70,000 in gold and silver.

Buried treasure. Gold, silver, emeralds, forgotten mines...

Mexico has them all, well hidden but waiting.

In Good Taste Programs At Wedding Not Advised

Dear Mrs. Post: I was a guest at an out-of-town wedding recently and encountered a practice that was entirely new to me. As the guests were being seated, each one was handed a program by the usher. These programs were on double fold paper and on one side was listed the musical selections that were to be played and sung and the names of the organist and the soloist; the other side listed the names of the bride and groom and their attendants and also the name of the officiating clergyman. I have been to a great many weddings in my time but never before have I seen wedding programs. Is this something new in wedding procedure? I was told that in addition to providing this helpful information to the guests, the programs also served as mementos of the occasion. Are such programs in good taste?

Answer: I have never heard of such programs and most certainly do not advise anyone to copy this idea.

No Announcements

Dear Mrs. Post: This is an unusual request but I do hope you will be good enough to help me with my problem. I am a young woman in the late twenties and have just had a baby (an adorable little girl). However, the child was born out of wedlock. I would like to know if it would be permissible to send out birth announcements under the circumstances?

Answer: I am sorry but I cannot advise you to send out the announcements as many people would be shocked at receiving an announcement reading "Miss Mary Jones has the happiness to announce the birth of her daughter, etc."

Veteran Actor Takes 2nd Wife

Washington - Veteran actor Edward G. Robinson was married Thursday to New York dress designer Jane Adler in a justice of the peace ceremony in nearby Arlington, Va.

Robinson, appearing in a stage production here, disclosed the marriage - his second - in a backstage interview Thursday night. He gave his age as 64, and his bride's as 48.

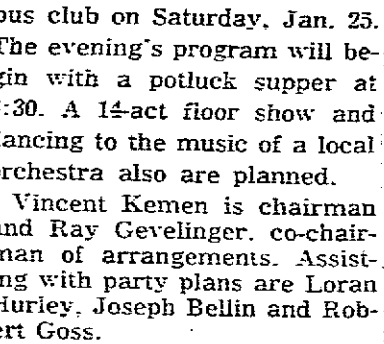

The short, cigar-smoking actor, who frequently portrays the "tough guy," is starring in "Middle of the Night," a play dealing with the marriage of a man to a much younger woman. The play ran for 465 performances on Broadway before going on the road.

His bride is associated with the production.

Robinson's first marriage, to Gladys Cassell of New York City, ended in divorce in 1936 after 29 years. The first Mrs. Robinson was an actress whose professional name was Gladys Lloyd.

In a civil suit filed in Los Angeles in 1936, Robinson's divorced wife said the actor was using community funds to support and entertain Miss Adler. The suit demanded the return of more than \$25,000 in gifts Robinson allegedly gave the dress designer.

It was not immediately determined whether that suit has been settled.

DEAR ANN: Will you please settle a dispute between my husband and myself? My father-in-law, who is a widower, writes to us often. He always addresses the envelope to "Mr. Ex and Family." He never bothers to put Mrs. on the envelope. Then he begins the letter "Dear Folks," again failing to mention my name or I'm married, and he's well aware of this. Also, I'm about 20 years his junior. This "Sir" routine irks me because it's so put on. Yet I love my position

Wet Decals Will Slip Off Walls

BY ROGER C. WHITMAN

Question: How can we remove decals in our bathroom? Answer: Dealers selling decals usually also sell a special blotting paper for removing them. If decals have been covered with varnish, first remove varnish coating. If blotting paper is not obtainable, saturate several thicknesses of tissue paper and place it over the decals, allowing it to remain for about a half hour, keeping paper well-moistened. Try lifting corner of decal with point of knife. Repeat soaking if necessary.

Slope of Roofing
Question: Can shake roofing be used on a roof which slopes only 4 and a half inches to the foot? If so, how much of the shake should be exposed to the weather?

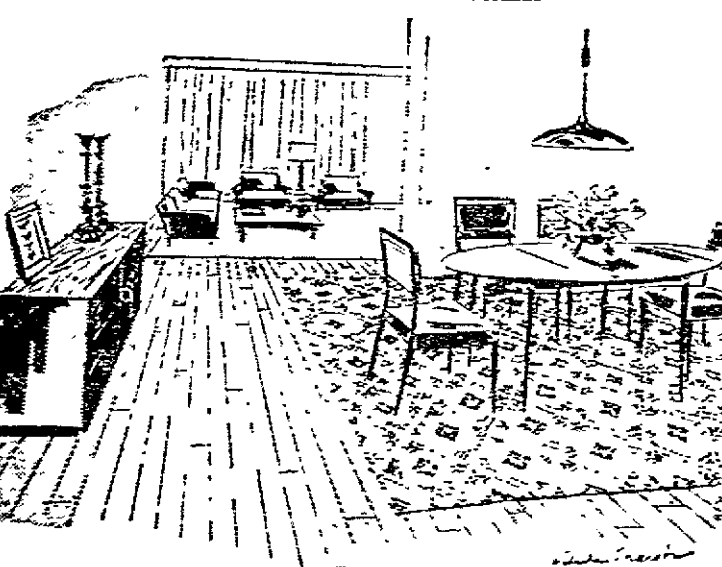

Answer: Usually five inches per foot is considered the limit for shake roofing. At this slope, for example, only five inches of a sixteen-inch shake should be exposed. It's possible, of course, to use shake on a roof with less slope, but so much less of the shake should be exposed to weather that it might lead to an impractical number of shakes.

Finishing Walls
Question: This winter I would like to plaster the walls of our utility room, but I have a problem. In the summer, the walls sweat badly, as well as the water tank. Will this affect the plaster? What should I do?

Answer: Create an insulating air space by putting up an inside wall over the present wall. This should be done with furring strips over which you can either fasten wall board or plywood. The former can be plastered, if desired. The tank can be covered with asbestos or fiber glass insulation, available at plumbing supplies houses.

Beauty Hints on How To Pamper Feet

By Marian Matthews

The last big shopping orgy should have proved your feet can't take it—without a little pampering.

To avoid a repetition of the beauty and energy loss when feet are tired remember it is important, before you start out to be certain feet are in their happiest state, fresh from a shower or bath, powdered and ready to ease into fresh hosiery and comfortable shoes. (Cut toenails if needed and give attention to any problem spots that require it.)

Wear flats or walking shoes that permit hours of comfortable wear. Other clothing should be easy to wear—choose lightweight garments that won't burden you with their weight after a few hours of walking.

Eat Properly
Good advice when you're going to be on the go all day is to start with a really good breakfast. (Have some protein to fortify yourself against mid-morning hunger.) Stop for lunch and do this at your regular hour. Don't put off until mid-afternoon when you may find yourself weary, headachy and not too interested in eating a balanced meal.

Lunchtime also gives you an opportunity to stop and rest your feet. Before or after lunch stop at a powder room, re-engage of their daughter touch make-up and spray feet with cooling cologne or foot lotion. Wiggle toes and take a moment to let nylons dry before slipping feet into shoes again.

Many departments have chairs for customers' convenience and you might take a few moments to sit down and relax Kaukauna High school and attended St. Norbert college. De-

You'll return home feeling quite human if you take the time to consider yourself and expenditure of your energies during the day you shop.

Wedding plans have not been made.

Appleton Pair Held in Kansas

Gerald Whitfield. Wanted for Abducting 17-Year-Old Girl

Olathe, Kan. — A young Wisconsin couple told police Friday night they had been unsuccessful in a 3-day effort to get married.

Gerald E. Whitfield, 20, Plover, and a 17-year-old Appleton girl, were picked up Friday at a rooming house where they had registered Thursday night. They said they had tried to get married a couple times during the trip but failed because the girl gave her true age.

The girl's mother signed a complaint charging Whitfield with child abduction and a warrant was issued for his arrest after the couple left Appleton Wednesday.

Local officers said the girl and Whitfield would be held here for Appleton police. (Chief of Police Herbert W. Kapp said Appleton police will pick up the pair early next week.)

(Whitfield, who has been living at 127 N. Appleton street, is charged with enticing the girl into his car and fleeing. The girl's mother told police that her daughter had been dating Whitfield despite her parents' objections.)

14 Estates Set For Hearings In County Court

County Judge Stanley A. Staidl will hold hearings on 14 estates Tuesday in probate court.

Hearings will be held on the wills of Mary Hinks and Bertha Schubring.

A hearing on joint tenancy in the estate of Amelia J. Mace will be held.

Hearings on claims will be held against the estates of John Ferd, Mabel Jochman, Anna M. Cloos, Ida Hanel, Haze Strout, Thyron, Meta Clara Scherke, William Rammmer and Ida E. Freeman.

Hearings will be held on the final accounts of the estates of Carrie McCarter, Lydia Bauer and John F. Voge.

Higher Tax in Wrightstown

Rate Increased \$2 Per \$1,000 in \$36,300 Levy

Wrightstown — Property taxes are being collected on a tax rate \$2 per \$1,000 of value higher than they were in 1957. The current tax rate is \$42 per \$1,000.

Only the county levy remained the same at \$9.36 per \$1,000. All other sections of the levy were increased.

The \$42 tax rate will bring in \$36,300 of which the village will retain \$8,594 raised at a \$9.95 hotel.

Appleton Post-Crescent 10 Saturday, Jan. 18, 1958

per \$1,000 rate, 10 cents per \$1,000 higher than last year.

The schools will again receive the largest share of the levy, \$19,293, raised at a \$22.32 per \$1,000 rate, \$1.89 per \$1,000 higher than last year.

The state will receive \$323 raised at a rate of 37 cents per \$1,000. The rate last year for the state was 36 cents per \$1,000.

The county's share of the levy is \$8,091.

Rotary Speaker

Verne Imhoff, Menasha, will speak on criminology at the Tuesday meeting of the Appleton Rotary club at the Conway hotel.

Commission Takes Skeptical View of Poygan's Sturgeon

Agrees With Fisheries Men That Lake Contains Too Few Big Fish

Madison — The Wisconsin conservation commission showed skepticism about claims that the sturgeon population in Lake Poygan is expanding when it decided to keep the spearing season there closed this winter. There were even indications that spearing will be prohibited there in the winter of 1959 also.

Five years ago the commission ventured short open seasons on the smaller lakes tributary to Lake Winnebago, as a part of the traditional winter harvesting of the big fish permitted for Lake Winnebago proper. The Lake Winnebago spear season will start as scheduled on Feb. 8 and continue through the month.

The harvest from the smaller lakes was studied carefully, and last year fishery men noted that the fish taken were fewer, smaller and younger. They asked for a closed season.

Use of Poison To Crop Fish Key Activity

Fisheries Head Calls It One of the Year's Major Developments

The successful introduction of poisons into natural waters to destroy or reduce populations of rough fish is one of the major new developments in Wisconsin fish management, according to Dr. W. W. Schneberger, chief of the state fisheries division.

Dr. Schneberger appraised newer enterprises of his division in a review of 1957 work prepared for the members of the state conservation commission.

Sizeable Lake He disclosed that his technicians last year were able to kill about 100,000 pounds of rough fish in a sizeable lake "with scarcely any damage to game fish." The lake was Lake Eau Claire, about 455 acres in size, in Dunn county.

Twenty-five other lakes at scattered locations in the state, counting more than 1,200 acres of water in total, were also poisoned during the year and planned for trout production or for warm water fish. The lakes treated last year already have crops of young fish which should produce good fishing within a few years, the state official observed. The cost of lake poisoning has been brought down with the use of newly introduced toxic materials.

Cropping With Nets Meanwhile the division has found that cropping some undesirable species with nets has been found to be practicable in many waters.

State crews removed most of the crappies from Thomas Lake in Portage county with nets, and on a lake in Rusk county took bullheads at the rate of 37 pounds to the acre. Freely leptosporosis and brucellosis queries some of the prolific infections. Trainer said his panfish species are as undesirable as rough fish, and must be removed to improve the survival of the better game fish species.

Poygan Delegation

A delegation of Lake Poygan area residents led by Paul Wisner argued spiritedly against the commission's caution, but Thomas Wirth of the fishery research division was prepared for each of their arguments.

When Wisner and his friends suggested that Poygan and the other smaller lakes are joined to Lake Winnebago, which has a plentiful supply of the big fish, Wirth answered that there is no evidence of a migration between the lakes.

"We don't know why, and it is a curious thing. Some of the sturgeon from Winnebago cross Poygan on their spawning migrations, but then they return to the big lake," he said.

Wirth was unconvinced.

"I've fished Poygan since 1921 and there are more sturgeon there now than there were then," he claimed.

Quail Can be Good Friends Around Farm

Provide Food and Ground Cover to Start a Covey

Quail can be "good friends" around the farm. If you have a special covey you'd like to see develop, here are some suggestions from Joseph Hickey, wildlife specialist at the University of Wisconsin.

Hickey points out that quail are now the most frequent along the Mississippi river counties from about St. Croix lake poisoning has been brought down with the use of newly introduced toxic materials.

To get quail started on a Wisconsin farm you need the right combination of food and ground cover.

First, food. Quail like seeds of ragweeds. They eat some corn and other grains, foxtail grasses and other seeds. In summer they eat insects like leaf beetles, and larvae of sawflies, weevils, blow flies and ants. They'll also eat wild grape, ground cherry and other wild fruits.

Quail Need Cover Hickey explains that quail need cover primarily for protection from enemies, for loafing spots and for travel lanes to food. Cover is not needed as much for protection from cold.

To help your quail, consider these:

Fence out creek bottoms and woodlots. You don't need special planting.

Leave some food patches or borders in the fields near the cover. This might be a few shocks of corn opened up at the bottom. Or leave the oat stubble for plowing until spring.

During weeks when winter snows are absent, use the manure spreader in the more open fields. When snows get deep, work the spreader near hedgerows, woodlots and other cover. In really severe winter weather, you may want to spread a little feed for the quail.

Should you allow hunting on the farm? Hickey says there appears to be no unusual depletion in the spring quail population where up to one-half of the fall covey is shot.

Boating Continues To Hold Popularity

Number of Power Boats Operating In U. S. Up 10 Per Cent Over 1956, According to National Survey

Pleasure boating in the United States last year continued its spectacular increase in popularity.

The number of power boats, up 10 per cent compared with 1956, increased at twice the rate of automobiles.

Add to this figure more than one million sail boats, rowboats, dingies and canoes and better than 7 million pleasure craft were in operation in the U. S. in 1957.

This information is revealed in a national study on motor-powered pleasure craft.

Wisconsin Up Wisconsin, the survey showed, had 210,133 power boats in operation in 1957, an increase of 8,834 over the previous year. Michigan's total went up 38,672 from 397,537 in 1956 to 436,209 last year.

In actual numbers of power boats added to their fleet, New York state leads the roster with 59,000, followed by Michigan with 39,000, and Ohio with 35,000. New York and Illinois both increased their number of power boats by 11 per cent and Ohio jumped 12 per cent.

New York with 571,000 power boats maintained last year's lead as the "boatingest" state in the union. Michigan was second with 436,000, and California third with 383,000. They are followed by Illinois, Ohio, Texas, Florida, Minnesota, Wisconsin and Washington, all which passed the 150,000 power boat mark.

Land-Locked States Two land-locked states, Wyoming and South Dakota, showed the largest percentage increase in power boats. In Wyoming it amounted to 52 per cent while in South Dakota it was 26.3 per cent.

Officials feel that the rapid rise in power boat ownership, which reached a total of 5,931, Michigan in 1956, and about 5,000 in 1957, gives support to the popular claim that pleasure boating is the nation's fastest growing outdoor sport. If this trend continues, the Sunday cruise may one day be as ordinary as the traditional Sunday drive. In some states, this day may be nearer than we think.

In Illinois, for example, there is already one small craft plyboat in the waterways for every ten automobiles on the road.

The most important factor contributing to this development is the rapid increase in the number of outboard boats, which increased from 4,545,000 in 1956 to 5,190,000 in 1957, a gain of 14.2 per cent.

Fish Harvest Steady, but Below Peak

Value From Two Great Lakes Set At \$7,072,000

Madison — The harvest value of the Wisconsin Great Lakes fisheries is remaining fairly steady, but it is considerably below the best years of the past, reports the state conservation department.

The fisheries division said the 1956 value of Lake Michigan commercial fisheries harvests amounted to \$1,633,100, and that of Lake Superior \$5,439,000.

The figures compared with a recent high of nearly \$3,000,000 for Lake Michigan, in 1945, and a recent high \$7,800,000 for Lake Superior in 1948. The report showed slightly more than 15,000,000 pounds of fish harvested commercially from Lake Michigan in 1956, and about 5,000 from Lake Superior. The Lake Superior fisheries generally catch more valuable species, including trout and whitefish.

End of Trout The most serious setback to Wisconsin commercial fisheries during recent years has been the destruction of the high value lake trout fishery in Lake Michigan.

The Lake Superior harvest for 1956, put at just under 500,000 pounds, was about typical of the catch there during the last decade and a half.

But for Lake Michigan the conservation department for the second year listed a zero for the trout catch. The last significant harvest of trout from Lake Michigan was recorded in 1948. Once catches from 2,500,000 to 3,000,000 pounds yearly were regarded as normal. According to the authorities, the principal cause of the extinction of Lake Michigan trout has been the predatory sea lamprey which is now present in the lake in great numbers and which may be controlled by an enlarging program of trapping sponsored by state hatcheries, officials report. The Michigan fishery men in turn borrowed stock from officials of the province of Ontario, in Canada.

The first plantings in Wisconsin will be made in late spring or summer. The plan is to rear the little fish to larger than usual size, so that they will have a better chance to survive in wild water. The young fish will be planted in one or several of the inland lakes of the state in which the department has been trying to improve trout fishing.

The department was cautious about predicting results.

"Nothing very spectacular has yet happened in Michigan," a spokesman said about the experimental breeding and planting, "but we believe it is worth a trial here."

State May Someday Have New Fish Breed 'Splake' Is Hybrid Representing a Cross Between Brook and Lake Trout

Madison — Anglers probably shouldn't put any bets on it, but there is some chance that they may encounter a new breed of sporting fish in a forthcoming Wisconsin season.

The state conservation department has started an experimental program of raising and planting "splake."

Fish Is Hybrid The fish is a hybrid, representing a cross between the brook trout and the lake trout. The word is derived from the colloquial "speckled" for brook trout and the "lake" of the deep water cousin.

A supply of eggs of the cross-breed has been obtained from the Michigan conservation department and hatched in a state hatchery, officials report. The Michigan fishery men in turn borrowed stock from officials of the province of Ontario, in Canada.

The first plantings in Wisconsin will be made in late spring or summer. The plan is to rear the little fish to larger than usual size, so that they will have a better chance to survive in wild water. Hold First Meeting on 1958 Game Club Fisherman's Party

It may be too early to be thinking of flipping a fly into a swirling trout stream or dunking a minnow in the Wolf river but it is that time of the year when anglers in this part of Wisconsin look ahead to the Outagamie County Conservation club's annual fisherman's party.

The traditional get-together of fishermen and their wives will be held in mid-March, judging from discussions at a meeting this week of the club's board of directors.

The exact date will probably be determined Monday night when the directors meet again at city hall.

This week's meeting was of an exploratory nature. The directors discussed entertainment, committee assignments and tickets as well as a party date and the important slogan contest and prize list.

Full details on the party are expected to be released following Monday night's meeting.

New officers of the county club are Al C. Fischer, president; Oscar Barthel, Black Creek, vice president; Henry Liebsch, Jr., secretary, and Lester Engleman, treasurer. Fischer, Liebsch and Engleman are from Appleton.

State Hatcheries Produce 500,000 Musky Fingerlings

The state's muskellunge hatcheries had a "banner year" in 1957 and produced 500,000 musky fingerlings for stocking in rivers and streams, the annual report of the state fisheries division discloses.

Dr. E. W. Schneberger, division chief, also noted a change of method in production.

"We are now attempting to hold our own brood stock due to the public relations problems encountered when taking eggs from natural populations," he told the members of the state conservation commission.

A Hospital Plane of the Military air transport service landed at the Winnebago County airport Friday to transfer a polio patient, completely paralyzed with no use of hands or legs, from Mercy Hospital at Oshkosh where he had been confined for over two years to the Rehabilitation center at Omaha, Neb. Military Plane Flies Omro Polio Victim to Rehabilitation Center

March of Dimes Unit Spent \$15,000 On Patient's Care

Post-Crescent Oshkosh Bureau

Oshkosh — Where the March of Dimes money collected in coin canisters, through contribution envelopes and from the Mothers March goes was dramatically portrayed at the county airport here Friday afternoon.

Flown in from Scott air force base near St. Louis, Mo., was a hospital plane of the military air transport service to pick up and deliver a polio patient who had spent over two years in an iron lung to the rehabilitation center of the National Foundation for Infantile Paralysis at Omaha, Neb.

That patient is Walter Reid, a 25-year-old young man from route 1, Omro, who was stricken with the disease Aug. 1, 1955. He is so completely paralyzed that he cannot move either his hand or his legs.

For the upwards of two years since he was stricken, he has been a patient at Mercy hospital at Oshkosh. Most of that time he was in an iron lung but his recovery has been such that he can now be out of the iron lung.

Portable Lung on Plane
A portable lung was carried on the plane for use if necessary and an air force doctor and nurse were in attendance on the hospital plane as well as medical corpsmen.

The plane had made several stops along the way with other patients before landing at the Oshkosh airport about 1 o'clock Friday afternoon.

The Winnebago county chapter of the Infantile Paralysis foundation has used \$13,500 of its March of Dimes money already on Reid's hospitalization and care and has another \$2,000 in outstanding bills on him which it has not paid because of lack of funds.

This was the second trip to the county airport by the air plane to get Reid. It had flown up Wednesday but a heavily overcast sky made it impossible for the plane to land and it returned to its home base.

3-Way Aldermanic Race Develops in Ninth Ward

Two Men Announce Candidacy for Posts on County Board; Iola to Seek Reelection

Neenah — Another three way race for alderman developed Friday afternoon when Ald. Charles Biolo took out papers for the Ninth ward post. Biolo, a two-year veteran of the city council, will run against newcomers Clifford Burton and Paul Hansen. A three-cornered contest also exists in the First ward.

Two men also announced their candidacy for positions on the county board of supervisors Friday afternoon. They are Robert "Bob Skally" Skalmoski of the Fourth ward and Lawrence Driscoll of the Second ward. They are the first candidates to be announced for the county board.

Biolo presently represents the First ward, but resides in the new Ninth ward created by last year's redistricting. He lives at 752 Reed street. He ran in 1956 for an unexpired term and again in 1957 for a one-year term, winning both contests. Biolo is a member of the council's finance and public protection committees.

He and Al Francour of La Crosse county will speak on the subject of the role of the specialist as it concerns the county extension program and how to make best use of the specialist's time.

Supervisor Candidates
Skalmoski is a political newcomer. He is an oiler in the engineering department at the Kimberly-Clark Lakeview mill and for the last seven years has been recording secretary of Local 482 of the International Brotherhood of Pulp, Sulphite and Papermill workers.

Skalmoski is 35 and lives at 110 Mayer street. He is originally from Menasha and has been a resident of Neenah for 12 years. He is married and has two children, the oldest one a student in the Neenah school system.

Driscoll, 45, is running for political office for the first time.

He's been a Neenah resident for the last 25 years, the last four years spent in the Second ward. He served as a Neenah fireman for four years.

Driscoll is married and has four children, two boys and two girls, all at home. He is sales manager for the Engel Real Estate company of Appleton and was one of the organizers of the Tri-City Boat club.

There are now candidates for every office to be elected in the April 1 election except for county supervisors from the First, Sixth and Ninth wards. A total of 24 men and one woman have taken out nomination papers so far.

Ronald Casperson Hearing Adjournd

Post-Crescent Oshkosh Bureau

Oshkosh — Proceedings against Ronald B. Casperson, 18, 212 Cedar street, Neenah, who is charged with breaking into the Krueger Hardware store in Neenah on Dec. 17, were postponed until Friday by Municipal Judge S. J. Luchsinger.

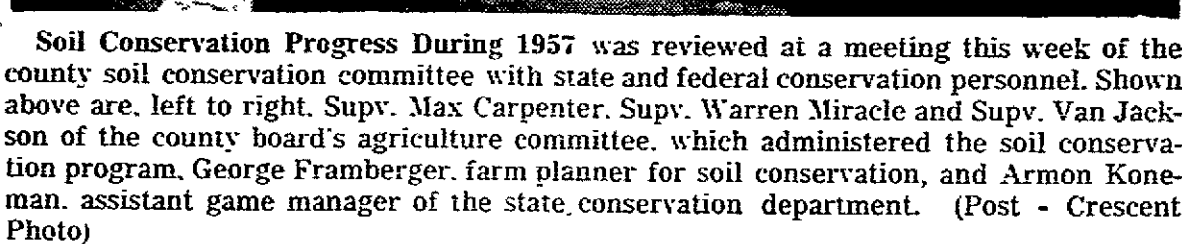

The adjournment was asked by Howard E. Bloom, Neenah, Casperson's court-appointed attorney, so further investigation could be made. Casperson is being held at the county jail. He was returned from the Central State hospital at Waupun this week as being competent to stand trial.

Fined \$10, Costs for No Driving License

Post-Crescent Oshkosh Bureau

Oshkosh — Clarence E. Knight, 40, 162 E. North Water street, Neenah, Friday was fined \$10 and costs for driving without a license by Municipal Judge S. J. Luchsinger. Knight was arrested at 2:45 Friday for driving on County Trunk P in the town of Menasha by sheriff's police.

The state motor vehicle department had no record of any license ever being issued to him.

St. Timothy Lutheran church will begin its annual meeting with a potluck supper at 5:30 Sunday night. Included as part of its meeting will be a special showing of the film "The Living Church."

A potluck supper at 6 o'clock will precede the 7 o'clock annual meeting of the congregation of Immanuel's Evangelical and Reformed church.

Choir Concert
St. Paul's Lutheran church will be the congregation of Grace Evangelical Lutheran church for its annual voters session.

A public concert of sacred music will be presented at 7:30 Sunday night at Our Savior's Lutheran church by the choir of Dana college, Blair, Neb. The 50-voice choir is on its thirty-third annual tour. A free offering will be received. The first in a series of three Epiphany mission presentations will be held at 9:15 Sunday morning at Trinity Lutheran church. "The Ten Best Mission Stories of 1957" as selected by the department of missionary education of the Lutheran church—Missouri synod will be reported by members of the board of elders. They are Amos Page, Arnold Reinke, Edwin Timm, Ernest Munsche and Jesse Redmond.

Water, Electric Use In Menasha Increases

City Consumes 25 Million Gallons More in 1957; Power Up 6 Per Cent

Menasha — The city showed a 25 million-gallon increase in water consumption and a 6 per cent increase in the use of electricity during 1957. Thomas McGuire, water and light superintendent, reported today.

In 1957 there were more than 1.2 billion gallons of water pumped out of the Menasha plant.

Industry used 840 million gallons of water last year compared to 196 million gallons for residential users and 32 million for commercial use.

The 4 million gallons of water used on Aug. 25 was the high 1-day total for the year. August was the high month for water usage and April was the lowest.

Use Has Doubled
In 1957 there were 34,790,000 kilowatt hours of electricity used. During the last 10 years the use of electricity has doubled, McGuire reported.

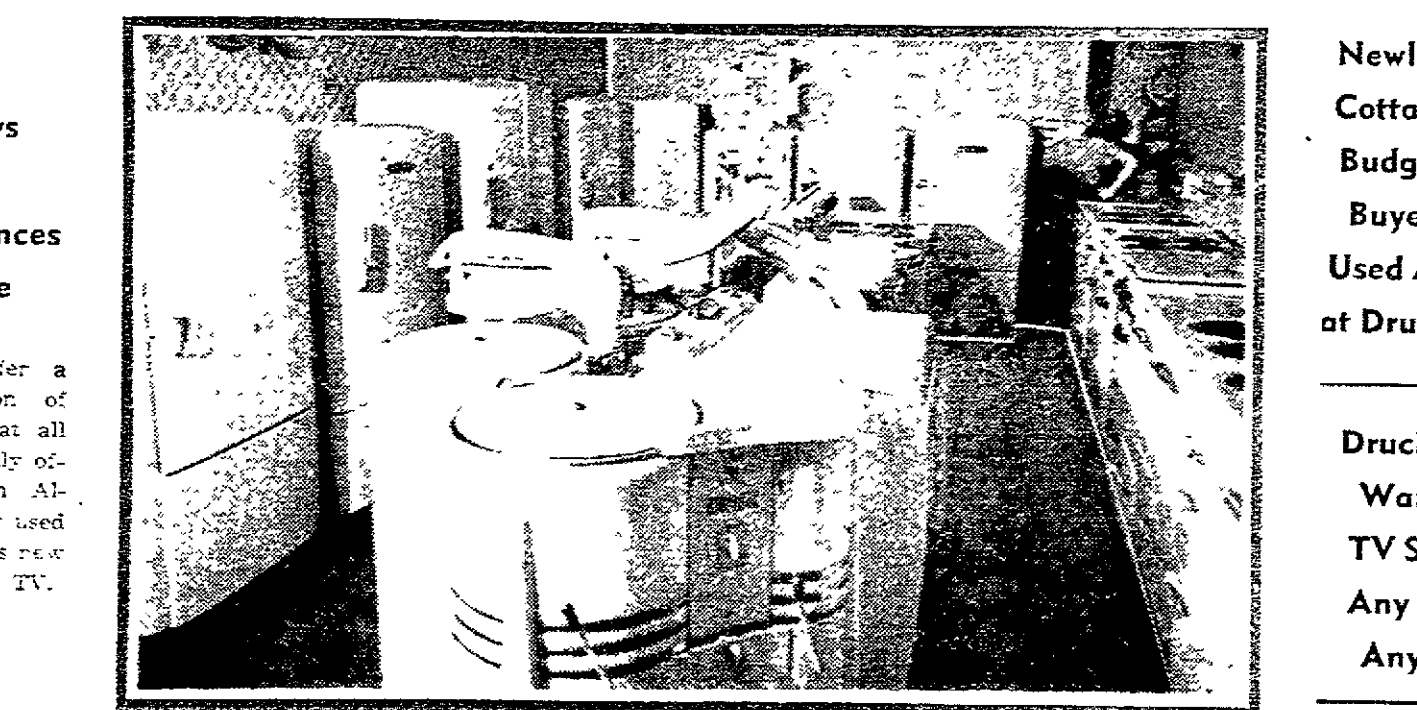

A chemical feeder was purchased in 1957 and will be put in use in spring. The chemical feeder will aid in treating water during the maximum treatment season in late summer.

Water mains installed during 1957 included 2,388 feet of 6-inch mains in the Harding district superintendent of the street subdivision and 170 feet of 6-inch mains in the Klenke district. He has chosen "Open Doors" as his sub-ject.

Calvary Baptist church has scheduled a business meeting able to handle all the city's in connection with its midweek needs and there are no immediate plans for additions or expansions.

Brigade Camp Plans Complete

Group to Stay at State Forest; Week's Activities Charted

Neenah — Plans are now complete for the Boys' Brigade weekend camping trip at Mauthe lake in the Kettle Moraine state forest. It was announced today by Jack Casper, brigade coordinator. Seven leaders and 23 boys are making the trip today and will return Sunday. The Brigaders will camp in a building on the grounds.

A full schedule of meetings has been scheduled for the coming week. The sixth graders Monday night will tackle the second unit of their study of wild animals of Wisconsin, learning to identify them by tracks, signs and habits.

The ninth and tenth graders Monday will hear James C. Clark, a ceramic engineer for the M. H. Detrick Brick company, Munster, Ind., tell of his job, travels and interesting experiences. Clark is working on the firebrick installation at the new addition to the Neenah-Menasha sewage disposal plant.

The seventh graders Tuesday will study their second unit on first aid and will see a film on the subject, "Help Wanted," from the state board of health.

The eighth graders Tuesday will continue their study of travel and transportation by hearing Athan Wanda, an ex-editor for Kimberly-Clark corporation, discuss how to read a time table.

Credit Union At Marathon Sets Election

Assets Reach Over \$1.5 Million; Loans Total \$1,129,300

Menasha — Marathon Menasha Credit union will name four directors and two credit committee members at its twenty-fourth annual meeting at the Elks club at 7 o'clock Sunday night, Jan. 26. Speaking at the meeting will be Bill Hanson, advertising manager for the Utility Tool and Body company of Clintonville. Known as the Norwegian humorist-philosopher, he will talk on "The Rich Never Have Any Fun."

The credit union reached the \$1.5 million mark in assets on Oct. 18. It paid a 4 per cent dividend.

Directors whose terms expire are Edith Foth, Ray Gorton, Phil Miller and Douglas Strong while the two credit committee members whose terms expire are Edward Resch and Phil Palmer.

Personal loans granted in 1957, according to Carl J. Hagen, treasurer, totaled \$867,183 an increase of \$221,189, while real estate mortgage loans came to \$393,894, up \$128,583 from the previous year. The assets Dec. 31 were \$1,570,058, which was \$403,357 more than the previous year.

Gross income of \$114,171 during the year represented an increase of \$29,809 over the 1956 report. The credit union totals 2,663 members out of a 3,000 potential and during the year had 1,402 borrowers.

Personal loans were made to 2,529 who borrowed \$940,900 during 1957, bringing the total since the credit union was founded to 23,225 loans totaling just under \$5 million.

Thirty-eight real estate loans totaling \$188,427 also were made last year. Charged off as bad loans was \$1,099, which brought the total since the organization 24 years ago to \$12,505. A recovery of \$821 was made on the bad loans charged off, bringing that 24-year total to \$3,092.

Officers of the credit union are Douglas Strong as president, Albert W. Haack as vice president, Hagen as treasurer and Eugene E. Meyer as assistant treasurer.

After the business meeting and talk by Hanson, there will be a dance and lunch for members and their guests.

TIME OUT!

From the world of science comes a startling new discovery about the human heart. Doctors know now that after every beat, your heart takes a rest — standing still for one-sixth of a second! This means that you actually live one-sixth of your whole life with a stopped heart. But if the thought, or sight, of a new car makes your heart stand still, why not sell the old one with the help of the fast-acting little Want-Ad and use the cash to help pay for a new one. Here's an example of want ads at work. Just dial 2-4243 and you can get the same results

Non-Essential Junkets in for Difficult Time

Washington — Chairman Smith (D-Va.) said Thursday his house rules committee will bear down hard on legislation providing for non-defense spending and on proposed congressional junketing abroad. Bills or resolutions dealing with either subject, he said, will have a hard time clearing his committee "unless a very good case is made for them."

Words often misused: Do not say, "On the north side of the field was an electric clock and a scoreboard." Say, "WERE are going to have to be mighty important before we will clear them."

Often mispronounced: Sar-donyx. Pronounce sahr-doh-nicks, accent on first syllable.

Often misspelled: Wry (crooked). Rye (a grain). Synonyms: Produce (verb), furnish, supply, bear, breed, cause, create, originate, manufacture, bring forth.

Word study: "Use a word three times and it is yours." Let us increase our vocabulary by mastering one word each day.

Today's word: inopportune; inconvenient; not timely. "No visit could have been more inopportune."

Jeff Chandlers Resolve Differences Over Money

Los Angeles — Film star Jeff Chandler will continue paying his estranged wife, Marjorie, \$1,500 to \$1,700 a month pending trial of her divorce suit.

The couple, apparently friendly at a pre-divorce hearing yesterday, resolved their differences over her demand for \$6,500 monthly support of herself and two children.

The actor agreed to pay taxes, mortgage installments and bills he assumed last year. The hearing was recessed last week to give attorneys an opportunity to work out a settlement.

Zephyrs Make 5th Conference Start

Place League Lead on Line
In Test Against Springs '5'

Menasha — An upstart Fond du Lac Springs five will provide an acid test for St. Mary's Zephyrs in a Fox Valley Catholic conference play tonight at the Menasha High school gym. The Zephyrs take a 4-0 conference and they rallied to win the Fond-du-Lac record in the scrap, 52-31 after trailing by 1-3 but its losses five points with 1:23 remaining. Ken Resch got the deciding goal.

Of the returning players, on-Mary's once in basketball play Dave Wigton scored for since it joined the Catholic conference 10 years ago and that game. He had three free throws. Dave Miller had eight.

Pat Below six for St. Mary's. In the second test, Wigton scored 11 points while Below had 10 for the Zephyrs. The Zephyrs have a four-game conference point-to-point lead over the Springs.

Lukely starters and their games in recent campaigns have been close, hard-fought affairs. St. Mary had to put out all

Menasha's Stenson Tops All Scorers
With 16 Markers

Menasha — Coach Charlie Shepard's Neenah Junior varsity quieted off to a roaring start and moved to a 50-34 win over Menasha in Friday night's preliminary game at the Blue-jay gym.

The victory gives the Rockets a 5-1 conference mark and an overall 9-2 season slate. Menasha has 4-2 in Mid-Eastern play and is 300 for the year on 5-5.

Neenah scored the first 10 points of the ball game and it wasn't until 45 seconds remained that the Jays got their only two points of the first quarter. Jim Stenson made the field goal. The winners added five more points for a 15-2 quarter lead.

The Rockets ambled to 17-2 and 19-3 leads in the second frame and had a 27-10 advantage at halftime.

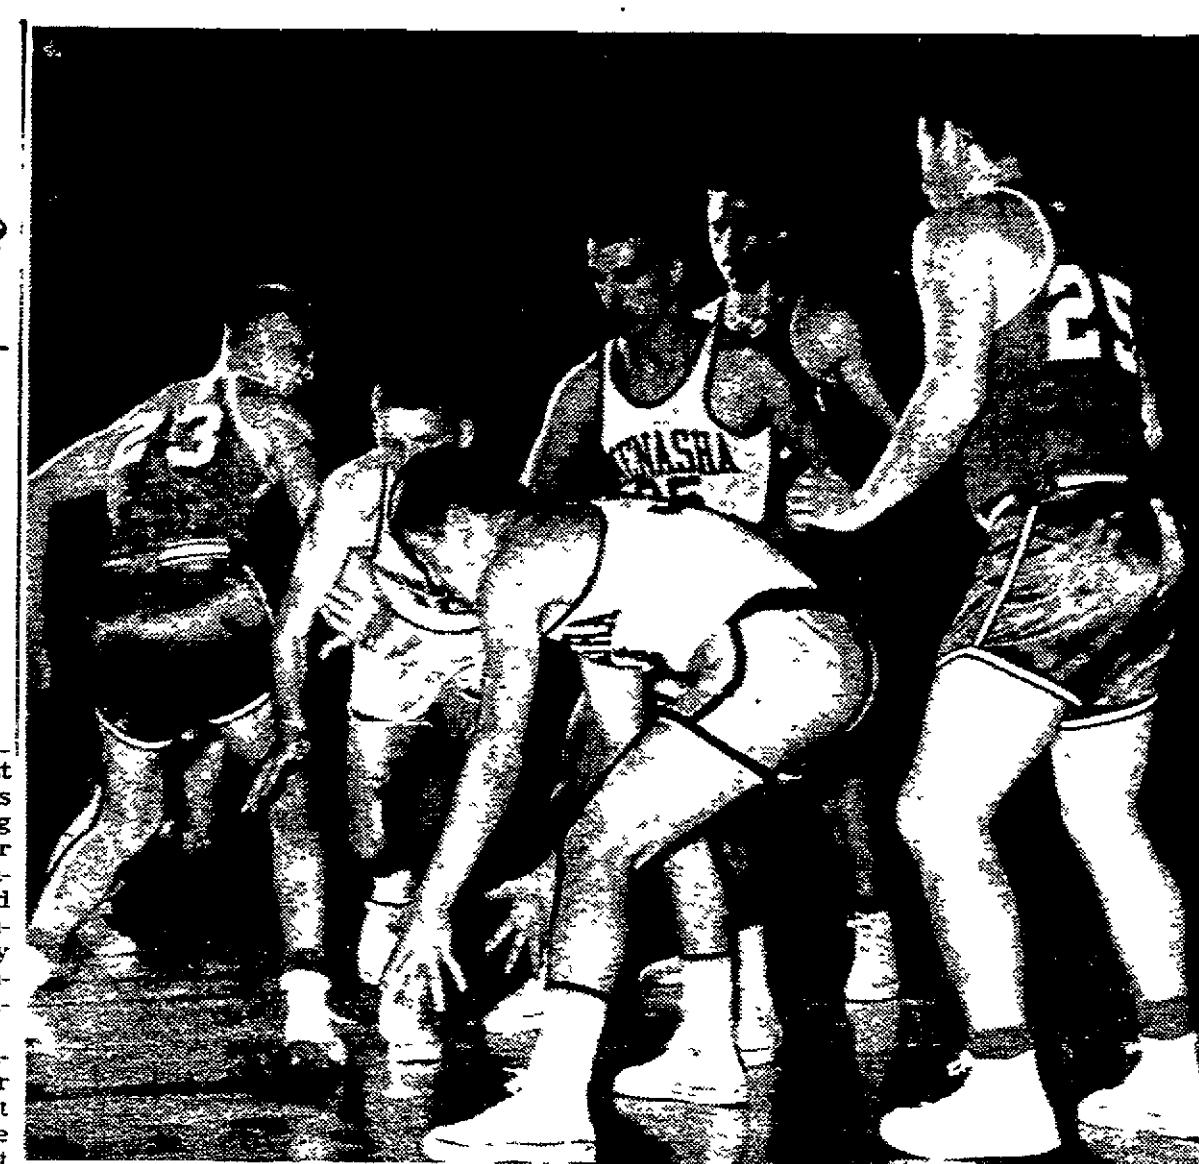

Gary Ellis scored 13 points to top the visitors while Jon Halverson added 11 and Bob Tollefson made nine. Stenson claimed Menasha and game honors with 16. Russ Wendt was next with seven.

St. Mary JV Cagers Shoot For 9th Win

Menasha — St. Mary's junior varsity guns for its ninth straight victory when it takes on Fond du Lac Springs at 6:30 tonight at the Menasha High school gym.

The Zephyrs are unbeaten in four conference games, boast non-league victories over three other high school squads and have a victory over the St. John CYO team.

Springs has a 3-1 conference record and it has done well outside the league. Its top scorers are Jim Flesch and Dan Kief.

Besides keeping their record perfect, the Menasha reserves would like a win to avenge last year's setback. They had a string of 22 wins in conference play stopped by the Springs, 50-46 at Fond du Lac last February. Just about all of the boys from both squads are now up with their respective varsities.

Sharp, Frakes Slam Leading Counts in Menasha Pin Loop

Menasha — Bob Sharp of the Valley Coffee Shop team slashed a 579 series and Dick Frakes topped a 217 game to split honors in the Menasha Men's Bowling league Friday night at Mid-Town.

Frakes, who bowls for Wetzel's, closed with a 547 count. Sharp rolled 203 and 213 in his top series. Jerry Laux clipped 215-575. Willie Karnopp 573. Lloyd Sternhagen 204-546. Lyle Tatro 201-535. Orv Prokash 535. Bob Pontow 534. Sam Gartzke 532. Guy Wideman 530. Larry Mar-

quardt 212, and Sheldon Klutz 206. Highway 114 Gun club had an even 1,000 game and finished with 2,752 for team laurels. Cozy bar leads with a 31-194 record. Wettengel's is a game off the pace with 504-204 while Club Terrace has 28-22½ and Trader's 28-23.

Barbara Buksky collected a 304 series and Val Flanagan bowled a 180 game to head the Twin City Women's league at Mid-Town Friday night. The former, who is league president, had 177 and 173 games in her high trio.

Marilyn King bowled 173-481 and picked the 4-5-10 and 8-10 splits. Other cleanups included Arlene Streib 3-10. Minnie Nelson 3-6 and 5-7. Pearl Nussbaum 5-10 and Margaret Mader 5-10.

Plateau had an 846 game and 2345 series for team tops. Smith-Talbot leads with 34-17. Plateau is 14 games away with 324-181 and Club tavern has 30-21.

St. Mary Graders Win Over Falcons

Menasha — St. Mary Grade school turned back St. John 31-10 in a Catholic Boy league game Friday night at the Zephyr gym.

The Junior Zephyrs blanked the Falcons in the first quarter while they made 10 points. The score was 19-4 at halftime and 22-8 at the close of three periods.

Adrian Martin led St. Mary with eight points while Tummett had two baskets and a free throw to account for half of the Falcon total.

The St. Mary "B" squad scored a 13-8 win, paced by Tom Mortelli's seven points.

Set Officials, List of Events For Skate Meet

10 Races Planned; Award Prizes to Top 3 Finishers

Menasha — The list of events and state of officials for the annual skating races Sunday afternoon at the Seventh street rink were announced today by the Recreation department. A 10-event program has been scheduled with the first race slated for 2:30.

Advance registration is not necessary. Boys and girls wishing to enter the races in their age divisions are to report at the rink at 2:15. The skaters' names will be taken at race time. There is no entry fee.

The events in order are boys 9-11, one lap; girls 9-11, one lap; boys 9 and under, 1 lap; girls 9 and under, one lap; boys 12-14, three laps; girls 12-14, two laps; boys 9-11, two laps; girls, 9-11 two laps; boys 12-14, one lap, and girls 12-14, one lap.

In a few of the events where there are enough skaters to make the race a final, no heats will be run off.

3 Double Winners

The 1957 races produced three double winners, Gretchen Herrbold, Michael O'Brien and Dick Dachelet. Other award winners were Doris Warznik, Michael Smith, Barbara Steffin and Susan Riehl. All of the races are run around a circular course marked in the ice by flags. Race officials hope for below freezing temperatures before the event to give the rink an added coat, needed because of the recent unseasonable high temperatures.

Members of the Menasha Recreation commission will serve as race officials. Edward Waszkiewicz will be starter and Hilard Walbrun and Thomas Calder, finish judges. Recreation Director Jerry Smith will announce the races over the portable public address system.

Prizes for the first three finishers in each of the events will be awarded after the final race. The 10 events will be completed about 3:30. Last January about 40 entrants took part in the meet held in 19 degree weather.

CYO League Games

Neenah — Twin City teams in the Fox River Valley CYO basketball league are slated to open second round play Sunday afternoon. St. Margaret Mary for the first time will play St. Patrick while St. John plays host to Oshkosh St. Peter.

Hewitt Machines have two Badger Amateur Basketball league games on tap. They opened their second round play against St. Margaret Mary at 8 o'clock tonight school vocal group. Coach Tom Porter will present trophies to day travel to Hortonville. The top tackler, most valuable Machmen bested Two River player and top blocker. Laurance Kitchin, president of the first round play.

The Menasha Macs will try for their initial second round Eastern Wisconsin Amateur league win, after successive losses to Plymouth and Brilbanquet. Wayne Williams, chairman, Ed DenDooven, J. B. Third-Ranked Neenah '5' Pulls Far in Front in Second Period; Leads by 20 Points at Halftime

BY GEORGE MANCOSKY
Post-Crescent Staff Writer

Menasha — A defensive-minded Neenah squad did nothing to jeopardize its third place

Seggelink Selbach

state ranking by overpowering Menasha 67-34 in their Mid-Eastern conference game here Friday night.

For the high-powered Rockets, it was their eleventh straight win of the campaign, and their sixth in conference play. They now await the "big one" in the Shawano wigwam next Friday night. Menasha now has a 2-4 league mark and is 3-7 for the year. The loss was its third straight.

In much the same manner as their intercity football game was decided last fall, the Rockets didn't do many things wrong against their traditional foe. In winning, they broke a two-game victory string the Jays had on them.

Limited to 11 Goals

Their potent zone defense limited the Jays to 11 field goals and it has been quite a while since a Menasha team has been held under 35 or even 40 points. The Jays didn't have more than three field goals in any one period.

Meyer Thomsen

The visitors were devastated from the outside, particularly in the first half, with Ed Meyer and Dave Thomsen doing the firing. They controlled the boards against their smaller foe and Fred Seggelink did his usual great job of tipping. Neenah's defense completely bottled up Don Nelson, the conference's third ranking scorer, limiting him to a field goal and a single free throw.

First quarter action gave an indication that the near cap-open second round play Sunday acity audience might be due after a thrilling battle. Defense prevailed in the initial frame with both clubs using zones. Menasha had the upper hand

Free throws missed: Neenah 5 (Meyer 2, Thomsen, Gries, Carlson); Menasha 12 (Nelson 3, Konecize 2, Stepanski 2, Jorgensen 2, Koslowski, Robinson, Taves).

8-7 with 1:12 remaining but Thomsen connected from the side and Bill Kuehl made a jump shot for the last four points of the quarter and an 11-8 Neenah lead.

With almost three minutes gone in the second quarter, there was still a three-point difference (15-12). But then came the deluge. Meyer scored on a long jump shot and then added a long set jump to put the drive in motion.

Before Menasha could break the ice, with 1:23 left in the half, the Rockets had zoomed for 15 straight points for a 30-12 lead. Each team got a basket for a 32-14 intermission score.

The Jays abandoned the zone in the third quarter and went into their familiar press. They rebounded well offensively and cut the margin to 1 point at 33-19, 35-21 and 37-33 but Neenah spurred for the last six points of the quarter to move ahead by 20 (43-23), going into the final eight minutes.

The Rockets were almost unstoppable during the first half of the last segment and hit 13 points to four for Menasha and a 61-27 score. Marv Carlson made three straight fielders and Seggelink had a couple of tips. Reserves played the final couple of minutes for both squads.

Unofficially, Neenah had 88 field goal opportunities and made 29 for about 33 per cent accuracy. Menasha hit 11 in 59 tries for about 18 per cent. From the free throw line, the Red and White had nine of 14; Menasha 12 of 24.

Neenah got fine balanced scoring, paced by Seggelink's 20 points. Thomsen added 15 and Meyer hit 14. Carlson and Gene Gries each had six.

Gordy Selbach, the outstanding Jay player, led Menasha with 12 points and played a fine floor game. Jerry Koslowski was runnerup with six.

Of encouragement for the Menasha fans was the first varsity appearance of Dave Ristau, a 6-2 freshman, who played the last two or three minutes and tallied four points, fourth best among the Jay scorers.

Oshkosh — For a while here Friday night it appeared that— for the third straight time over a 2-season period—an underdog Oshkosh High school basketball team had Appleton's number. Finally, however, order was

restored to the scheme of things and the Terrors ground out a 62-54 Fox River Valley conference victory.

Red Devil '5 Jolts Sheboygan Central

A white-hot Green Bay East quintet blasted Sheboygan Central from the ranks of the state's unbeaten prep teams with a 91-57 home court victory Friday night.

Central's loss enabled Manitowoc to take over the undisputed leadership of the Fox River Valley conference. Manitowoc topped Fond du Lac 66-48. Friday night plays at Central tonight in another of the weekend's showdown battles.

By Prentice amassed 33 points for East, which led, 48-22, a half-time. Bob Wittig scored 23 for the Red Devils and Tom Hughesbanks added 18.

ing itself for a big game at Green Bay East next Friday, night by defeating Sheboygan North in an 8:15 home engagement tonight. A win is a "must" if Appleton is to enter the list of the powerful Red Devils as a bonafide title contender.

Take 17-13 Lead
Coach Ron Nord had his Indians well fired here Friday and they poured in eight of 13 first period shots to take a 17-13 lead. Appleton then switched from a zone to a man-for-man defense and the hosts were so unnerved that they zeroed in on just one (1) of 17 flings from the floor in the second segment.

The Indians' 5-point quarter proved fatal.

Once again the peerless Jack Ullwelling paced AHS scoring, tallying 19 points.

He was held to nine markers in the first three periods as Nord had the Indians in a 4-man zone with Ullwelling man-for-manned. Whenever Jack drove into the zone he was double and triple-teamed.

Forced to open up their defense when they trailed in the last quarter, the Indians gave Ullwelling more room and he flipped in a pair of jump shots, two drive-ins and a brace of

Badgers Seek Third Big Ten Win at Purdue

Foster Optimistic In Face of UW 'Jinx' at LaFayette

LaFayette, Ind. — The University of Wisconsin basketball team, paced to a pair of upset victories by the return to scoring form of two sophomores, seeks its third straight Big Ten triumph tonight against Purdue.

Badger Coach Bud Foster thinks the task is not at all impossible, and said that if the game develops as he expects, "I think we can win."

"The Boilermakers have been hot against us for many years," he said, "and although they have a good all-around team this year it could be time for us to turn over a new leaf."

Wisconsin has not won here in 15 years.

"They do have some good shooters," the coach said. All five Purdue starters have been averaging in double figures.

Zone Defense Ready
"We've been working particularly on a zone defense," Foster pointed out, "but if they shoot well from the outside, we'll be ready with some variations. If we can stop their long range shooting, I think we can beat them."

Starting for Wisconsin will be Sam Barnard, Bob Litzkow, Ray Gross, Walt Holt and Brian Kulas.

It was the development of Barnard and Bob Barneson as scoring threats that gave the Badgers victories over Ohio State and Illinois last weekend. They were the first conference triumphs for Wisconsin, beaten by Illinois and Michigan in the first two starts of the league season.

All-Junior Lineup
Purdue has a 6-5 season record, and holds a victory over Indiana, one of the Big Ten's co-leaders.

Starting for the Boilermakers will be an all-junior lineup including Bob Fehrman, Bill Greve, Wilson Eison, Marv Austin and Willie Merriweather. Eison is the team scoring leader with 130 points.

The game will begin at 7:30 and will be broadcast.

John McGee Quits MU Grid Staff

Milwaukee — John McGee, assistant football coach at Marquette university for the last two seasons, has resigned.

athletic director Larry "Moon" Mullins, said Friday.

McGee said he was negotiating for another coaching job but was not at liberty to discuss details. He came to Marquette two years ago from Loyola High school, Los Angeles, coached the Warrior freshman squad for one season and the varsity line last fall.

He is a native of Milwaukee and coached Marquette High to school for six years.

Ghosts Nudge Bulldogs For 3rd M-E Triumph

Resist Last Quarter New London Surge For 48-41 Win

New London — With less than three minutes remaining in the final quarter here Friday night, the New London Bulldogs made a desperate try to overtake

40 seconds left, scored a pair of free throws for the visitors and Monsour added another free throw for New London before the game ended.

Both teams, using zone defense patterns, played on equal terms through the first half, which favored the visitors, 21 to 20, when the teams went off the floor at the intermission.

Kaukauna held a 8-6 lead at the close of the first quarter and the biggest lead of the game at the end of the third quarter, 40-28.

Leads Rebounders
Forward Cameron Gorges carried most of Kaukauna's load.

There was a contrast in shooting between Beckman, who topped New London with eight baskets and one free throw for 17 points, and Guard Bill Borchardt's 14 points for Kaukauna. Beckman was hitting from the corners and Borchardt, with practically no arch on the ball, hit from many places on the court.

Simons topped the Kaukauna scoring with five from the court and eight free throws for 18 points.

Commission Gives Dodgers Coliseum

Deal Calls for \$200,000 Annual Rental Fee for Next Two Seasons

BY CHARLES MAHER

Los Angeles — Well, they finally ran off the last reel of the biggest cliffhanger produced hereabouts since "The Perils of Pauline." The surprise ending shows Walter O'Malley scaling the precipitous walls of the Coliseum, followed by a lot of men in baseball suits.

The relieving finale was made possible Friday when the coliseum commission decided, at last, to let the Los Angeles Dodgers play in the Coliseum in 1958 and 1959.

It is just possible they will open April 18 before the largest crowd ever to watch a baseball game. They have 101,000 seats to play with. The record is 84,587 for an American

league doubleheader in Cleveland Sept. 12, 1954.

Perhaps the man most responsible for the Coliseum deal is O'Malley.

Formal negotiations started only a few days ago, but the compromise deal was actually months in the making.

Briefly, the deal provides that the Dodgers guarantee to \$200,000 rent a year. All the money from concessions will be credited to the Dodgers' rental account and the Dodgers will keep anything over \$200,000.

For nine games only—the nine open April 18 before the opening series—the Dodgers will pay a flat 10 per cent rental fee and will not share in concession profits. This was a compromise provision made for the Coliseum's football tenants—the University of Southern California, UCLA and the Los Angeles Rams. They have been paying a straight 10 per cent rent.

Vote Still Ahead
But, as another compromise measure, the football teams will be charged only 5 per cent during the two years the Dodgers use the stadium.

In the Coliseum O'Malley will have more than four times as many seats to sell as in LA's Wrigley Field, which holds something in excess of 20,000. Parking conditions, though not ideal, also are better at the Coliseum.

A new ball park O'Malley planned to build in Chavez Ravine awaits a referendum decision by voters June 3 on a real estate exchange contract between the Dodgers and the city of Los Angeles.

Braves Sign Pact But Pencil in A Few Changes

Milwaukee — The Milwaukee Braves Friday signed a County stadium rental contract that would almost double the county's 1957 income, but penciled in a few changes that must be approved by the Milwaukee County board.

The pact would yield the county \$400,000 yearly, compared with \$216,000 in 1957, and the baseball club agreed to a minimum rental of \$40,000 annually should the team decide to televise home games.

The contract covers five years and includes an option for an additional five years without renegotiation of terms.

Johnny Temple Signs Contract for 1958

Cincinnati — Johnny Temple star second baseman for the Cincinnati Redlegs, signed his 1958 contract Friday. General Manager Gab Paul announced.

Eighteen Redlegs now have 1371. Italy, outpointed Stan signed their contracts for the Hayward, 1383, Australia, 12, coming season.

Kimberly — Kimberly high's Papermakers shifted into high gear in the first quarter and roared away from Clintonville, to a 77-54 Mid-Eastern conference victory Friday night here.

The win was the fourth in loop play against a pair of setbacks for Kimberly. It was their first league win since bowing to leading Neeah and Shawano in successive games.

Kimberly lost no time in gaining ground on the Truckers as they moved to a fast 22-9 lead in the first period. Junior Jack Lamers set the pace for the Papermakers as he pumped 12 of his 22 points through the hoop in the opening frame.

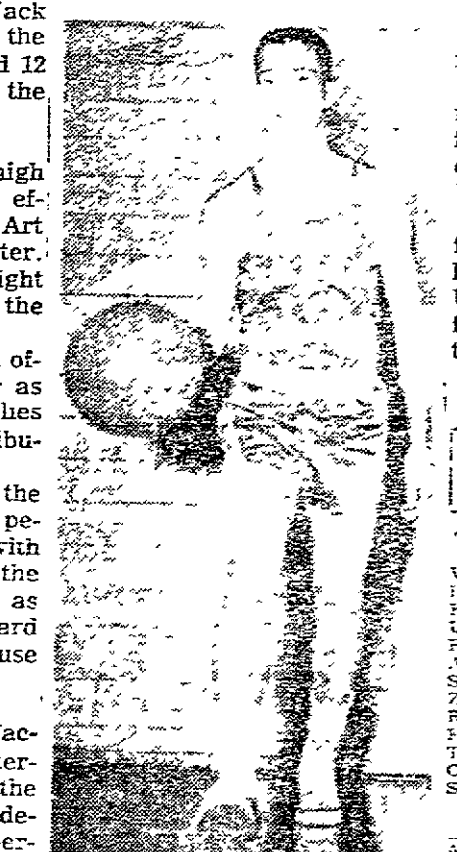

High Scorer
Lamers finished as the high scorer for Kimberly but his effort was overshadowed by Art Dahly, rangy Truckers center, who bagged 24. Dahly had eight buckets and the same from the free throw line.

Kimberly did not let up on offense in the second quarter as they pushed 20 more tallies home with six players contributing to the total.

Clintonville began to find the scoring range in the second period as they came through with 18 markers. Daily was the sparkplug of the comeback as he scored nine points and guard Bob Scholman helped the cause with seven.

Uses Press
Clintonville found itself facing a 42-27 deficit at the intermission and came out in the second half with a pressing defense that baffled the Papermakers for the early minutes of the third period. However Coach Gil Frank's boys met the press with a fast-breaking attack that boosted their lead up to 20 points.

Lolly Morrissey Named Victor in Declamations

Four Other Students Participate in Yearly High School Recital

Lolly Morrissey, daughter of Mr and Mrs. Paul Morrissey and a senior at Appleton High school, was judged outstanding speaker in the serious declamation recital. Her name will be engraved on the AHS hall of fame plaque.

Also in the recital were Joan McEam, Nancy Newbury, Dwayne Norris and Fay Royan.

The story of an Italian orphan boy in "Tony, the Abandoned" by Natalie Carlson was the winner's choice. It dealt with an American woman who wanted to adopt an Italian boy her husband had known during the war. Particularly good was her handling of the Italian dialect and the Cockney dialect of Miz Hawkins, in charge of the orphanage.

Variety marked the program. A spy story with a Civil war setting was told by Miss McEam in "High Heart," by Adeline Rowell.

Norris, gave "Those Are the Stars," by Joseph Cross, which tells the story of a man who had been blind all of his life.

Miss Newbury turned to the historical for her reading and gave an episode from Maxwell Anderson's "Elizabeth, the Queen."

A story of horror and suspense was told by Miss Royan in "The Whole Town is Sleeping" by mummy inhalator and resuscitator Ray Bradbury, an account of a tator.

woman's fear of being followed and of impending disaster.

W. A. Witte, assistant principal who presided at the program, gave each of the participants the official forensic pin. The recital in humorous declamation will be held Thursday afternoon under supervision of Kenneth Sager.

Judges for the recital were Mrs Warren Caryl of Lawrence College, Mrs Gerald John and Hal Blay.

Committee Right in Denying \$2,809 Tax Claim, Tibbetts Says

The city council's finance committee was right in denying a claim for \$2,801.58 filed by the town of Grand Chute.

State Assessor of Incomes J. L. Tibbetts believes.

Tibbetts told City Clerk Elden Broehm in a letter received today that the claim for tax shares erroneously given Appleton, came after the legal time limit.

The claim Tibbetts says, "was not timely filed and therefore could not be approved by the department of taxation."

Town Clerk Leslie C. Woldt, who notified the city of the claim, was sent a copy of Tibbetts' letter.

VFW Makes Donation

Seymour — The Veterans of Foreign Wars contributed \$150 toward the purchase of a community inhalator and resuscitator.

Pig Buyers Fail To Heed Police, Fined \$10 Each

Four drivers who parked along County Trunk 11 west of Highway 55 despite county police warnings were fined Friday in municipal court on charges of illegal parking. All the men were buying pigs and ignored repeated police instructions to park away from the intersection and off the highway.

Fined \$10 each were Edmund A. Durrant 27 route 2 Weyauwega, William E. Minks 31 route 1 Waupaca, Daniel Orr 31 route 1, Waupaca.

Lawrence Huffman 27, route 3 Neenah also charged with failure to display license plates. The case was adjourned pending Huffman's proof he sent his registration fee to the state. Gervase Ebert 46 Gresham was fined \$25 and charged six points against his driving record for speeding in a school zone.

Set Homemaker Meeting

Royalton — The LMR Homemakers club will meet Tuesday at the Edgar Stillman farm home. Mrs. George Pomrenning and Mrs. Don Dusterback will be the project leaders.

She's the only Girl on an Island Swarming with Airmen . . . and She's Looking for TROUBLE!... MISS MIZZOU IS BACK!

With no one permitted to leave a special Navy-Air Force test area, a girl is found floating on a rubber life raft. Steve Canyon recognizes the girl as Miss Mizzou, quite a gal from the old days. With no one permitted to leave the area, Mizzou is queen of the ball. Then a sinister development suddenly interrupts the war test . . . and air force brass wonder if Miss Mizzou is merely a harmless cataway. Don't miss this exciting new story in Steve Canyon — your favorite adventure strip.
